MICROTIMES™
December 12, 1994 • Issue #131

16
1994 Writers' Soapbox Awards

Once again, our annual tribute to subjective experience, varying mileage, and conflicting opinion from our writers; who, as usual, seem to find plenty to love, hate, and disagree about.

MicroTimes Annual 1995 Southern California Reseller Guide

Apple® Newton® MessagePad™ 100

The most affordable member of the Newton® family.

The Apple® Newton® MessagePad™ 100 personal digital assistant helps you manage information, stay in touch with people, and exchange information with your computer.

It runs a wide range of useful software, and it can connect with your Apple® Macintosh® computer or Windows-based PC (with the optional Newton® Connection Kit). Powerful handwriting-recognition capabilities for both printed and cursive writing allow the MessagePad™ to either transfer your notes into text letter by letter, word by word, or save them in handwritten form. It can help you organize ideas, take notes, and make sketches. The NewtonMail™ feature lets you stay in touch with other Newton® MessagePad™ users, and with Macintosh® and Windows-based computer users with an optional modem.

- *640K RAM, 4MB ROM • LocalTalk • Prints to Apple® LaserWriter® and Apple® StyleWriter® printers with serial cable, or to parallel printers using Newton® Print pack • Can exchange data with an Apple® Macintosh® computer or PC • Supports Group 3 fax machines • Wireless message capability • Extended battery life • Enhanced user memory*

BEST BUY!

With FREE Columbo Mystery Capers! part# 67066 $199.99

Yes, Here At Last, And Worth The Wait, It's....

The 1994 MicroTimes Writers' Soapbox Awards!

As our faithful readers know, once a year we invite our dedicated contributors to sound off on the best and worst of the preceding year, and usually they find plenty to sound off about.

This year is no exception. One guy has a blissful tech support experience, another has a bad shopping day.

There are isolated instances of self-promotion. As usual, there's little consensus and a lot of subjectivity. Which is, of course, the idea.

—eds.

Lenny Bailes

Hardware:

The Toshiba x3401 CD-ROM Drive. Never fails, faster than some of the newer triple- and quadruple-speed drives, works with a variety of SCSI adapter cards. The external version is easy to transport to the stereo system and reconfigure as a dedicated CD player.

AMI PCI Atlas P-90 Motherboard. Fast and well engineered, this motherboard includes two onboard serial ports with 16550 UARTs, an onboard parallel port, and *two* IDE controllers, capable of supporting up to four drives simultaneously. Unlike some of the cheaper clone motherboards, it does not disable monochrome video support, and it includes a Plug N' Play ready AMI WINBIOS.

Software:

The outstanding software product of 1994 is IBM's new **OS/2 Warp, v3.0.** This version runs at least twice as fast as OS/2 2.1, and includes a series of new productivity features: program launchbar, word processor/spreadsheet, fax program, CompuServe navigator, and IBM Internet kit (with built-in TCP/IP support to let you navigate the World Wide Web). The people who designed this upgrade are finally awake to what users want and need in the '90s. The problems that plagued earlier releases—installation bugs and lack of drivers—have been mostly eliminated.

An honorable mention to **Helix's Cloaked MultiMedia Utilities.** This little package can gain you from 60K to 90K of DOS conventional memory by loading CD-ROM extensions, mouse driver, and disk cache above 1MB. Version 2, which is due to be released shortly, will be able to do this trick, even if you don't install a DOS memory manager. (The current version requires support from DOS's included HIMEM.SYS, or a third-party package like QEMM, 386MAX, or Helix's own NETROOM.)

Aldus Persuasion 3.0 is an outstanding product for the Macintosh. It contains more sophisticated graphing and charting options than any other Windows or Mac desktop presentation package. The PowerPC version was just released as this goes to press.

Mary Eisenhart

This time next year I will probably be holding forth on several things I haven't quite gotten to yet, **Netscape** being first on the list. Next year I too will become a Webster. Maybe by that time somebody will have come up with a PageMaker equivalent for Web pages, too. (Currently, of course, Web pages are going through the same evolutionary hideousness that afflicted desktop publishing in its early days—3 x 5-card layouts with twenty-five different fonts and the like. Eventually there will probably be niche magazines for Web-page artists.)

I suspect that by this time next year there will be a good selection of **Magic Cap/Telescript**-based devices out there and I will have one. It may even be the **Sony Magic Link** that's out now.

And finally, having just learned from my old pal Roy Leban that **FullWrite**, the late lamented word processor from Ann Arbor Softworks that migrated to Ashton-Tate and more or less went into cryonic suspension after Borland (a fine company with little understanding of the Macintosh) acquired it, is returning to the land of the living. Back in the late '80s, FullWrite pioneered a number of features that eventually became standard components of word processors, and I'm looking forward to checking out the new improved version. Stay tuned.

But on the Cool Stuff Of 1994 front:

StuffIt Deluxe from Aladdin (now in v3.5) is an indispensable tool. Thanks to its awesome array of translators, I am now able to get text and graphics files as very weird-looking ASCII email (because the writer who's sending them has, say, uuencoded and arc'd the file), convert them, and work on them, regardless of whether they were created and compressed on Amigas, Suns, Compaqs, or Macs. This has eliminated an amazing amount of frustration and wasted time, and I recommend the product to any Mac user who needs to work with a lot of big and alien files. (Aladdin: 408/761-6200)

The other big productivity booster in the office has been **Casady & Greene's Snap Mail**, which has virtually eliminated Sneakernet and most of the paperwork attendant on deadline. Now when some hapless reader sends me a question in email (e.g. "Where can I pick up your magazine in El Monte?"), the question goes off in Snap Mail to the person who can actually answer it, and I've often got the answer ready for my correspondent in the same email session. Instead of wasting time finding a floppy big enough to hold that 1.3 meg GIF file, I just Snap it over to the art department. Highly recommended, and thanks to our systems czar John Dito for bringing us this wonder. (Casady & Greene: 408/484-9928)

Of course, every bit of productivity I have gained from these two products has been lost to tinkering with **The Complete After Dark**, a CD-ROM from Berkeley Systems. It includes all the After Dark screen saver packages in recent memory (except, alas, the Star Trek one), not to mention some helpful new Energy Star features that blank your screen after a designated idle period. Many of the screen savers are charming and wonderful, and several will make you laugh out loud—the ever-popular Multimedia Karaoke Flying Toasters, for instance, or Rat Race, in which varyingly clued rodents named after Berkeley Systems programmers run, or don't, around a virtual track. My favorite so far, Bad Dog!, portrays the usually destructive antics of a realistically ill-behaved canine on the desktop, with unspeakable consequences to the Trash can and great added stress in the life of the guileless kitten Boris.

The productivity hazard here is that it's possible to spend literally hours selecting and configuring your screen saver. I know. I've done it. Several times. And you should have this experience too, so if nobody buys you this CD-ROM for Christmas, buy it yourself! (Berkeley Systems: 510/549-2300)

A niche product, but an extremely useful one for the purpose, is **MicMac** from Nirvana Research, which allows recording of voice-grade sound directly to your Mac's hard disk. It greatly enhances the usefulness of PowerBooks as transcription machines, but it's also good for spoken memos and the like. (Nirvana Research: 1-800-525-3888; nirvana@cup.portal.com)

Moving to the book world: For a good read combined with a scarily plausible scenario of converging media, technology, and politics, check out ***Interface***, by Stephen Bury. "Stephen Bury" is *Snow Crash* author Neal Stephenson and his anonymous uncle, whose last name ends in" -bury," and they're both imaginative and fine-writing dudes. Highly recommended.

Peter John Harrison

Sometimes being a good LAN administrator has less to do with knowing how to run your company's LAN than knowing where to find the things you need to keep it running. With this in mind, here's a listing of the vendors and villains who've helped me do my job over this last year.

My first choice for LAN hardware vendor of the year is **Network Express** (1-800-374-9899). I've used Network Express at least a dozen times this last year, and they've always done a good job for me. They're my first choice for everything from common network cards to specialized LAN hardware the electronics superstores don't usually carry, like

SOAPBOX 1994 AWARDS

multi-port repeaters. Network Express prices are competitive, too, and while I can't always depend on the electronics superstores to have a dozen of my favorite network cards on hand, Network Express can usually get them to me the next morning.

Another choice mail-order supplier I use is **800-SOFTWARE** (1-800-SOFTWARE). Like Network Express, 800-SOFTWARE usually has a dozen or more copies of the more popular software titles on hand, and they carry out-of-the-way stuff, too, like Novell NetWare license upgrades, and they're always happy to order copies of anything they don't have on hand, all at competitive prices.

800-SOFTWARE also wins this year's nomination for best telephone salesperson. All the salespeople at Network Express and 800-SOFTWARE have been helpful, but **Mary James** always seems to remember my name and always gets me to smile or laugh when I talk with her.

Another great mail-order source for the network administrator is **Pacific Computer Supply** (415/366-0353). When one of my client's accounting servers developed parity problems in main memory and died, Pacific Computer Supply was able to ship me proprietary Compaq memory modules overnight, where their competitors couldn't do it in less than a week.

Not all my favorite vendors are mail-order outfits. **Fry's Electronics** (415/496-6000), for example, has an excellent selection of hardware, low prices, and reasonably friendly, knowledgeable staff. Over the last few years I've bought a couple dozen computer systems and innumerable smaller components from Fry's, and while they haven't always been perfect, they've always been easier to work with and generally less expensive than their major competition, CompUSA (1-800-CompUSA). [I am not a CompUSA fan.]

A vendor I can recommend is **NCA Peripherals** (408/739-9010). NCA has a good selection and some of the best prices on hard disk, tape, and CD-ROM drives, which you can either walk in and buy or order over the phone for next-day delivery. More than once I've had them ship drives directly to my clients, and felt confident that the drive would be there in working condition the next morning. In addition to their storage devices, they also have a good selection of PC-compatible hardware, and they sell their own line of PC clones. This was a big help earlier this year when one of my clients needed a replacement Trident "TVGA" card; NCA was the only place that carried them. NCA has also been good about exchanges, letting me hand-carry defective hard drives and computer memory to their Santa Clara location for a hassle-free exchange.

Ed Kahn

This past year has been marked by a decided drop-off in useful new products. I attribute this partly to the maturity of the industry. In past years, major new entries came along to fill real gaps in the tools we have. But now, most of the essentials are available and what we're seeing is a lot of refinements. I am pleased that the basics are finally taken care of. The result is that I have only a few products to highlight this year.

On the hardware side, one of my favorite new products is the **ScanMan Power Page** from Logitech. This amazingly useful scanner is small enough to carry on a trip; plugs into the parallel port of your computer; and scans full pages either for faxing, copying, or simply scanning in text or pictures. The software that comes with the product is powerful and well designed and works nicely with my fax software.

I have finally settled on **BitFax Professional** for my fax as well as general communications software. The package contains a lot of modules, including

SOAPBOX 1994 AWARDS

the ability to work as an answering machine if you have a voice modem. While the documentation is too skimpy, once you get it all figured out this software package is terrific for all your communication needs.

Hewlett-Packard's OmniBook 530 is my current choice for a subnotebook computer. Although it is small enough to easily go anywhere, it uses a real hard drive rather than an abbreviated memory module that ultimately causes you to modify the way you work. This basic design will undoubtedly last for years as refinements are added.

The last hardware product I've especially enjoyed is **Maxtor's DeskRunner/MobileMax** system. The first part of the system fits into a desktop computer and allows it to accommodate PCMCIA cards. The second part of the system is a line of PCMCIA hard drives that you can plug in, take out, and use in any other machine—portable, palmtop, or whatever—that is set up for a PCMCIA hard drive. This may be the wave of the future as increasingly large capacity hard drives in this format come to market.

The most exciting software product this year for Windows users who use word processors is **AddressMate for Windows**. This $69.95 package is a must if you write letters or maintain a database of addresses and phone numbers. It is designed to work seamlessly with AmiPro, Microsoft Word, and WordPerfect for Windows. Type a last name in your letter, hit an icon, and the name and address are inserted into the letter. Hit another icon and both the letter and an envelope are printed like magic. Bring up a name in the database and hit a couple of keys and the phone is dialed for you. The program does lots more, like make business cards, labels, name tags, place cards, and the like. This is the real Swiss Army Knife program and works to perfection. Available from CoStar (1-800-426-7827).

A final mention goes to **The Greatest Paper Airplanes** from KittyHawk Software (1-800-388-9622). For $40 you can get animated plans for twenty-five of the greatest paper airplanes you can imagine. And to keep you from being bored when your computer enters screen saver mode, you can see these airplanes folded and unfolded in front of your eyes.

David Morgenstern

Another year has flown by, and what a year it has been! PowerPC Macs have already wiggled into the Performa line and I'm still paying off my 512K. But it's great to be given another opportunity to blow soap-bubbles from the box.

Here are my picks for hardware and software honors. I guarantee that you will find them slightly unusual! Most are practical items that will help keep you computing and productive. It's an easy call to pick the sexy technology of the moment—which I would gladly do right now if I wasn't protecting myself for next month's column!

I've also stayed away from any recommendations of particular Macintosh models. There's no doubt that this is truly one of the best times in our brief computer history to buy a Macintosh. You will score big with almost anything you buy, from the "low-end" 68040 processor models to a PowerPC screamer. But stretch a little byte and spend the dough you don't really have. If you buy more computer than you think you need, you'll do better in the long run.

David's Hardware Products

• **Berkeley Data Access SCSI Cables.** If you've spent thousands of dollars for a hard drive bigger than the Grand Canyon, you don't want a crummy two-buck cable to bus your precious data. Steve at BDA can talk SCSI cables all day, and

SOAPBOX 1994 AWARDS

his are the best! This is a small, wholesale kind of operation, so you have to order cables a couple at a time, and four at a time will get you the best price break. Berkeley Data Access, 2560 Bancroft Way, #3, Berkeley, CA 94704. (510)644-2396.

• **Modem or CD-ROM drive.** Take your pick. Modems will not speed up or improve the operation of your Macintosh. They do not, of themselves, give you any output, or product that you can touch with your hands. Instead, a modem moves you out from your solitary relationship with your computer desktop, and into the entire world's computing space. You've got to be there with us!

There are an alphabet soup's worth of different protocols that can confuse the new user, but there's nothing to worry about. It's worth the extra money to buy a fast modem that supports the V.32bis protocol, even though it requires a special "hardware handshake" cable (most stores bundle everything together for you). The model with the most favorable mentions in BMUG meetings right now is the **U.S. Robotics Sportster 14.4** modem.

CD-ROMs are getting to be essential equipment. There's lots of good information, and really interesting games. Let's get our priorities straight, right? BMUG likes the Apple CD 300 drive, which is a good double-spin drive. It comes with a handful of discs, too.

• **Panamax Surge Protectors.** If these are not the best surge protectors in the world, they are the next best thing. Panamax protectors are not cheap, but they'll keep your even *more* expensive computer equipment from the vagaries of the power grid. They also have flavors for your home entertainment system or copier. If your system is damaged by a surge while properly connected with their protector they will pay for any and all repairs. Panamax, 150 Mitchell Blvd., San Rafael, CA 94903-2057. 1-800-472-5555; fax: (415)472-5540.

• **Q-Safety Earthquake Safety Fastening Products** are an exceptional set of simple devices to hold your computer, electronic equipment, or anything else down during an earthquake. There are fasteners for cabinets, water coolers—everything! The braces are various flavors of molded nylon, automobile industry, Velcro fasteners. Q-Safety, 2341 East Foothill Blvd., Pasadena, CA 91107. (818)449-1590; fax: (818)449-6866.

• ***The Tao of AppleScript*** was the first book on the market about AppleScript. Perhaps you're interested in finding out how BMUG was able to automate the layout of our disk catalog—taking information on the thousands of programs in the BMUG shareware library, stored in almost two dozen FileMaker Pro databases, and pass it on to PageMaker for formatting and correct positioning. Our script chugged on for ten days and nights (sounds almost biblical, doesn't it?), but saved months of human work. Sound like something you could use? You bet!

It includes a high-density disk containing Apple's official AppleScript software, as well as scripting utilities and additions written specifically for the book. The book weighs in just shy of three hundred pages and is published by Hayden Books. It's only $20 when ordered from the BMUG office. (510)549-2684; fax: (510)849-9026.

David's Top Five Software Products

• **The BMUG tie-dyed T-shirt.** I know, it's a soft-wear product—so sue me! This beautiful, bright rainbow shirt, with "BMUG" on the front, and "The BMUG T-Shirt, tie-dyed in Berkeley by Deadheads" on the back, is a winner in any crowd—hard rock and hardware. Only $15.

• **ClarisWorks.** Did you forget to add in software when you were budgeting your Macintosh purchase? It's not an uncommon occurrence. If you can spring for just one program, take a look at ClarisWorks. It has plenty of fea-

tures, and has a great user interface. It really works beautifully together, as it was designed to—shocking behavior in a piece of software!

• ***Creating a Healthy Work Environment.*** Some bosses still don't believe that computer use can cause health problems. If you can get them to read it, Apple has put out a little 12-page pamphlet that runs through basic repetitive-stress, eye fatigue, and hardware setup health issues. It even mentions laser printer ozone pollution. It's a good place to start a health and safety discussion. Apple Computer Inc., 20525 Mariani Ave., Cupertino, CA 95014. (408)996-1010.

• **EndNote Plus.** More people than ever before are going back to school. Keeping track of information for the various term papers you have due is always a problem. EndNote Plus, a powerful database that knows all about bibliographic references and styles, almost makes writing a term paper fun. It automatically generates a correctly formatted bibliography and footnotes for your paper. Niles and Associates, 2000 Hearst St., Berkeley, CA 94709. (510)649-8176 fax: (510)649-8179.

• **Think for Yourself CD-ROM.** This is a CD-ROM collection of statistics from United Nations, World Health Organization, and other American governmental sources, with an easy-to-use Discovery data analysis program. The information includes data on AIDS, the environment, health, and American demographics. The Discovery application "understands" the information of the data sets, and lets even young kids analyze and solve problems. It has a list price of $249, and an academic discount of $149. PEMD Education Group, PO Box 39, 35000 Highway 128, Cloverdale, CA 95425. (707)894-3668; fax: (707)894-5200.

What a great privilege it is for me to write under the BMUG banner. The helping and giving that flows daily from our staff and volunteers are the embodiment of the spirit of computing. Computers are not just machines. They are the synergistic combination of silicon and biological memories, only coming to life when we turn on the machine and connect with the data. BMUG believes computers can be a force for positive change, and we need the support of members and the developer community to keep up our good work.

I thank *MicroTimes,* Mary Eisenhart, and especially all the readers who have supported the BMUG column. May you and your data remain safe and healthy in the coming year.

Douglas J. Nakakihara

Let's see—last year at this time I said, "The best you can say for Commodore Business Machines, Inc. is 'the body's still warm.'" I also stated that I felt they had "taken the proper and necessary steps to wait out the storm." Well, I was wrong, and Commodore is no more.

It's been many months since Commodore closed its doors, but as I write this, it appears that the Amiga technology will be acquired either by the Commodore UK management group, headed up by David Pleasance, or by Creative Equipment Inc. (CEI), headed up by Alex Amor. Interviews with these two people were published in the September and October issues of *Amazing Computing.* Although publishing lag-time precludes real-time information, I felt the interviews provided valuable insight into how each of these suitors would handle things if they were the successful bidder. It was also nice to get real information instead of hearsay and speculation.

The UK group would initially emphasize Commodore's bread and butter, Europe. This translates into an emphasis on A1200s and CD32s. Essentially, the North American market would receive little attention unless a third party would take control of things under some type of distribution arrangement. My

TOTAL INTERNET

28.8 (v.34) MODEMS
Unlimited! $14.95/mo.

- Unlimited access - no hourly charges!
- Access from virtually any computer and modem. No special software!
- E-Mail, Gopher, FTP, Telnet, WAIS, IRC, MUDs, and much more!
- Access to all UseNet news groups.
- LYNX text-based WWW browser.

PPP/SLIP - from $9.95/mo.

- 5 free hours per month for $9.95!

thought would be that CEI, as the unsuccessful bidder in this scenario, would be a likely candidate.

On the other hand, if CEI should win, they would push the Amiga as a video solution, and not try to compete directly with PCs and Macs, though Amor indicated that Amiga prices would have to be brought in line with PCs. I like CEI's attitude and would like to see the Amiga pushed as a video-solution machine.

Even though the Amiga relies greatly on technology nearly ten years old and PC hardware has met and surpassed the Amiga in many ways, with respect to doing video and animations, I don't think I could be even half as productive using a PC. Amiga video hardware and software is more mature. Installation is nearly always a snap, at least compared to the PC world—we have always had "plug-and-go" technology. The benefits of the Amiga's efficient multitasking OS and ARexx programming language would be difficult, if not impossible, to find in the PC Windows world.

I sincerely believe that despite some crossover, the two platforms have become inherently different beasts and, as such, can exist side-by-side. The Amiga is a niche computer; that's OK with me. It's a big niche!

I don't really like to start the Macintosh/Amiga comparison; Apple has its own battle to fight with PCs. Most of the good Mac software has been ported to Windows, so Apple is not holding as many cards as it used to.

I know recent Power Mac sales have exceeded expectations, but that is probably not a long-term indicator. How many new computer owners are buying Macs instead of PCs? How many PC owners are switching to Macs? How much of the Power Mac sales are to people who already own Macs? What is Apple going to do with all of the inventory of non-PowerPC Macs (Quadras, etc.)? What's going to happen when Apple releases the next-generation Power Macs with not-backwards-compatible PCI buses?

I think the answers are: "few," "fewer," "most," "sell them cheap and undermine Power Mac sales," and "annoy anyone who bought a current Power Mac."

The point of the matter, as any good business person will tell you, is that to continue to be successful, you must increase market share. I just don't see that happening for Apple. I'm not saying the Mac is dead by any stretch of the imagination; I wish Commodore was in as good shape. I just don't think any platform can successfully compete head-to-head with PCs (i.e. Microsoft). That platform just has too much momentum.

Doug's Best Of 1994

intel inside

& a Lifetime Labor Warranty

DataByte Systems - 120 South Sepulveda Blvd., Manhattan Beach, CA 90266 1-800-281-1911 Fax 310-798-6377

310-372-5987

AmigaLink allows you to network Amigas together using their floppy disk ports. Better than ParNet because it frees up the parallel port, the SANA-II compatible software operates like a real network, and more than two machines can be connected. Although significantly slower, this is much cheaper than an Ethernet solution, and doesn't take up any valuable expansion slots. Plus it works on slotless Amigas like the A1200 and CDTV. (217/352-0061)

Pegger 2.0 (Heifner Communications)

Pegger adds JPEG support to any program. The new 2.0 release is significantly more versatile with the addition of the "snoop-by-program" feature. Pegger is invisible, fast, and can save oodles of disk space. (1-800-445-6164)

LightWave 3D Standalone (NewTek)

People without VideoToasters can finally officially purchase and run LightWave 3D. This version, 3.5, also adds some great new features. (1-800-847-6111)

This is a short list, but I've tried to make it meaningful, and Amiga product development has been in somewhat of a limbo lately. There are, I'm sure, other products that deserve to be listed, but I've tried to limit contenders to products that I've actually used. Because they have not shipped as of this writing, I didn't consider products like NewTek's nonlinear video editing card, the Flyer, and Electronic Art's DeluxePaint V.

Michael Robin

Hardware:

1994 has been another year of change at Apple. Throughout much of this past year, more and more critics seemed to be predicting Apple's demise.

In the face of this widespread pessimism, Apple is closing the year on a very strong note. The understated introduction and seamless integration of the RISC-based Power Mac have shown that Apple has not completely grown into another risk- (RISC?) averse technology company. In fact, the Power Mac has helped push Apple to "leader of the pack" for number of units shipped last quarter, a position recently claimed by Compaq.

Along with the new high-end systems, the continued proliferation of more competitively priced Macintosh computers and the corresponding migration of the low end to '040 machines were noteworthy in 1994. Unfortunately, the differences between a Performa and Mac Quadra are still unclear. It still reminds me of a production line at General Motors—several base platforms packaged with slightly different configurations and varying prices. What is the difference between the comparable Olds, Buick, or Pontiac? To be fair in this comparison, I must add that unlike the Olds, Buick, and Pontiac of today, Apple continues to manufacture high-quality products with many of the features people desire.

continued from page 30

Another Apple product that attracted my attention this year was the QuickTake digital camera. I am not a huge fan of collecting family photos on my hard drive, but for the growing number of people who are busy publishing to the Net, creating World Wide Web Home Pages, a digital camera is a necessary tool.

For telecommunications hardware, the **Global Village Teleport** series continues to shine as high-quality, reliable hardware. It also comes with easy-to-use fax software. Reflecting this higher quality is a slightly higher price, but it's worth it. For example, initially, after connecting a Teleport Gold external modem for my Mac it did not work properly. I called tech support and we narrowed down the problem to the modem itself. Global Village FedEx'ed me a replacement along with a pre-paid form for returning the troubled modem. I now agree with the crowd of people who swear the extra bucks are worth it.

This year, I also bought a competitively priced **US Robotics 14.4** external fax modem for my father. Once I convinced him to "get online", I set him up with a modem. Unobtrusive, with an on/off switch and volume button on the front panel, the USR Sportster is also an excellent choice. (1-800-342-5877)

Software:

This year our office made a leap forward on the communications front by installing internal email. **Snap Mail, by Casady & Greene** (408/484-9928), is as easy to use as you could imagine. In fact, it was installed without warning during the night on everyone's computer. There was a short memo letting us know it was there and a brief description on how to use Snap Mail. Other than that, there was no training. Within a few weeks Snap Mail had become a critical part of how the office communicates.

For communicating to the larger world via telecommunications, I have loyally been using **MicroPhone**, from Software Ventures. But posing a serious challenge is a new application from Aladdin called **SITcomm.** However, after working with SITcomm for several months, I proved that people have a strong tendency to stay with what they know. I returned to MicroPhone, where I'd already learned how to do a given set of tasks.

For people who have not yet been indoctrinated through experience to a particular telecommunications application, listen to what your friends have to say, but take a look at SITcomm before making a final decision.

Columnist, Jim Warren
Realizable Fantasies

MICROTIMES Columnist Award Recognition

NEW

FROM THE PLAYBOY FOU

FOR IMMEDIATE RELEASE
October 14, 1994

Contact:

COMPUTER COLUMNIST AND OPEN GOVERNMENT ACTIVIST JIM WARREN TO RECEIVE 1994 HUGH M. HEFNER FIRST AMENDMENT AWARD

Computer columnist and open government activist Jim Warren has been selected to receive the Hugh M. Hefner First Amendment Award in the category of government, the Playboy Foundation announced today.

Warr... and network-assisted citizen... cot a plan for ...ds to citizens throughout Ca... In Ma... that nearly all of the state's ... intrigued by the bill, Warren found several who were willing to sue, and was finally dead because it would cost millions of dollars to implement and there was very little public support.

Convinced that there was an almost free way of implementing it using the Internet, the largest...

"Warren's efforts to open up state government marks the first time online advocacy and network-assisted citizen action was instrumental in the passage of state legislation."

MICROTIMES salutes Columnist Jim Warren, winner of the 1994 Hugh M. Hefner First Amendment Award.

...state in the nation to provide online access via the Internet to extensive details of all state legislation in progress. Warren's efforts to open up state government marks the first time online advocacy and network...

SOAPBOX 1994 AWARDS

you have not been able to ignore the buzz surrounding the World Wide Web. Overly simplified, the Web is a hypertext system for publishing to the net. **NCSA Mosaic**, a freely available graphical reader to the Web, changed how people work with the Web.

The full impact of the wildfire started by NCSA Mosaic has yet to be witnessed, but a couple of effects are already visible. The demand for Mosaic has spawned a host of competing applications, including NCSA Mosaic (still freely available on the Net), **Enhanced NCSA Mosaic** (an improved, officially licensed version available from Spyglass, 217/355-6000), **Netscape** (created by some of the original Mosaic team), and others.

The major new company in this area is Netscape Communications Corp., cofounded by Silicon Graphics founder Jim Clark and Marc Andreessen, coleader of the original Mosaic team.

The other major impact from the demand to access the Web and use Mosaic-type software has been in the type of access to the Internet we use. No longer is a traditional dial-up connection to a local service provider sufficient to use Mosaic or other higher-level software for working on the Internet. You now needed a SLIP or PPP connection and at least a 14.4Kbps modem.

In the face of dire predictions of overloading the Internet, the demand for SLIP/PPP connections has helped to lower the prices. One of my favorite services, IGC (**Institute for Global Communications**, 415/442-0220), now includes SLIP at no additional charge. (They are also adjusting their price structure to generally lower the connect charges.)

Kevin Savetz

Kevin's 10 Favorite Internet Books

One hundred and sixty books. That's how many books are listed in the Unofficial Internet Booklist, a bibliography of books about the Internet. I publish the Booklist online. It's free to anyone who wants to know about 160 books that have to do with the Internet.

If you ran to the bookstore today and bought the lot of them, they'd cost you about $4000. If you even managed to get them home, you'll have about fifty thousand pages to pore through.

I'm guessing that most readers would rather not spend $4000 on Internet books, and would certainly rather not read fifty thousand pages of anything. So here are my ten favorite Internet books. Go to your bookstore and pick up some (or all) of them, and

SOAPBOX 1994 AWARDS

you'll enjoy the best of the best. These are in no particular order, because, well, I couldn't decide.

1. ***Internet Starter Kit for Macintosh, second edition***
By Adam Engst
Published by Hayden Books
ISBN 1-56830-064-6, $29.95
I used to think that this was absolutely the best Internet book for Macintosh users that was ever—or could ever be—written. Then the second edition came out and proved me wrong.

This book claims to be "everything you need to get on the Internet" and it delivers: everything from the software you'll need to get connected, to one thousand pages of copious knowledge. This is a fun, enlightening, excellent book. If you own a Mac and are on the Internet (or want to connect) this is the one to get.

2. ***The Internet Business Guide: Riding the Information Superhighway to Profit***
By Rosalind Resnick and Dave Taylor
Published by Sams Publishing
ISBN 0-672-30530-5, $25
Suddenly, everyone seems to be a self-proclaimed expert on how to do business on the Internet, so a half dozen books on the topic have appeared on bookshelves. Of the various books on doing business on the Internet, *The Internet Business Guide: Riding the Information Superhighway to Profit* is by far the best. By reading this book, you'll find out how to use the Internet to build market share, track down business leads, communicate with colleagues, and search online databases.

The book makes extensive use of real-life case studies to show how doing business on the Net can succeed—and fail. It covers aspects of business on the Net thoroughly and from unique angles, such as offering cost-effective customer support and exploring the options of setting up an online shop. If you've ever thought about using the Internet for your business, read this book first.

3. ***Internet Slick Tricks***
By Alfred and Emily Glossbrenner
Published by Random House
ISBN 0-679-75611-6
270 pages, $16.00
If you've been on the Internet forever (or at least for a couple months) and you think you know it all, pick up *Internet Slick Tricks*. I bet you'll learn something new. This slim guide will show you hundreds of tips and tricks on using the Internet. It's readable and honest and full of fascinating facts on decoding graphic images, using Archie, finding info online, and much more.

SOAPBOX 1994 AWARDS

By Kevin M. Savetz
Published by Sams
ISBN 0-672-30520-8
550 pages, $25

If you're reading this blatant plug for my own book, then this article has squeezed by my (intelligent and talented!) editor, Mary.

Your Internet Consultant—The FAQs of Life Online provides simple, enlightening answers to hundreds (361, to be exact) of frequently asked questions about the Internet. The book is unique because it is arranged in a question-and-answer format, making it blissfully simple to find just the information you need. *Your Internet Consultant* covers questions asked by users at every level, like "How can I send email to Congress?", "Where can I find games online?", and "How can I fall in love on the Internet?"

5. ***The Complete Idiot's Guide to the Internet***
By Peter Kent
Published by Alpha Books
ISBN 1-56761-414-0, $19.95

I have an aversion to books that treat the reader like a moron—or, even worse, that assume the reader himself thinks he's a moron. However, I discovered that this is actually a handy book for the beginner. It explains in a straightforward way how to get on the Internet, use the basic tools, and avoid many all-too-common traps. It teaches the Internet as a series of easy steps, focusing on what you really need to know to get a job done, rather than exotic details most of us don't have the time or patience for. It also comes with a DOS disk filled with additional reference documents and utilities. It's lighthearted, nontechnical, and enjoyable to read.

6. ***Teach Yourself the Internet: Around the World in 21 Days***
By Neil Randall
Published by Sams
ISBN 0-672-30519-4, $27.00

Many books about the Internet focus on individual tools, not how to accomplish a specific task. That approach can work, but that isn't the way many of us learn. We tend to ask questions like, "How can I get travel information online?" and "Where can I find job listings on the Net?" *Teach Yourself the Internet: Around the World in 21 Days* will appeal to those folks, because it's decidedly topic-oriented, not tool-oriented. For instance, if you're interested in reading (or publishing) an online magazine, this book shows you where to go for the goods on Usenet, in mailing lists, and on the World Wide Web. If you're looking for a job, the authors show you not only how to find job listings online, but how to use the Net to research prospective employers and find international job sources. Even if you've been on the Net for years, this book will certainly show you corners you've never imagined.

7. ***The Whole Internet User's Guide and Catalog, second edition***
By Ed Krol
Published by O'Reilly & Associates
ISBN: 1-56592-063-5, $24.95

The Whole Internet User's Guide and Catalog has turned out to be a classic, and the second edition sweetens the pot, having been completely updated to reflect the development of new Internet tools, including Mosaic, MIME, tin, pine, and xarchie. It also includes a wonderful catalog of Internet resources.

8. ***The Internet Yellow Pages***
By Harley Hahn and Rick Stout
Published by Osborne Publishing
ISBN 0-07-882023-5
447 pages, $27.95

The Internet Yellow Pages strives to be an unmatched subject-oriented index to the Internet's resources, a lofty goal given the number of competing indexes available. Of the copious online "yellow-pages" books available, it is obvious that the art department that worked on this one, worked the hardest. *The Internet Yellow Pages'* organization is intuitive and consistent, pointing to high-quality and truly interesting sites to visit.

9. ***The Internet Guide for New Users***
By Daniel P. Dern
Published by McGraw-Hill
ISBN 0-07-016511
570 pages, $27.95

A very complete introduction to the world of the Internet. Along with the obligatory topics such as telnet, FTP, and Archie, the book suggests how to get an Internet account and teaches enough UNIX to survive on the Net. This book is more complete and in-depth than many other Internet books: Dern's deep knowledge of all things Internet shines through, although sometimes the book is a bit too formal. The book, like Dern, is UNIX-centric and laced with dry humor.

10. ***Internet in Plain English***
By Bryan Pfaffenberger
Published by MIS Press
ISBN 1-55828-285-4
460 pages, $19.95

Of the various glossaries and dictionaries of Internet jargon, *Internet in Plain English* is the most complete. Arranged like a dictionary, it defines just about every term you're likely to hear on and about the Internet and UNIX, from "abbrev" to "'zine". It contains a lot of technical terms that tech-heads bandy about relentlessly (like CSO name server, ISDN, and OSI protocol suite) and can give beginners and intermediate users a leg up in understanding what everyone's talking about. ■

RESELLER 1995 GUIDE

Computer shopping is often a stressful business. Once again this year, the computer industry has inundated the customer with thousands of choices when it comes to buying new equipment or upgrading existing systems. However motivated they might be, many would-be buyers are so overwhelmed by the formidable task of shopping that they don't know where to start.

Well, once again this year, help is on the way. We're happy to present this year's edition of our listing of Southern California computer dealers and service providers, along with Authorized Service Provider listings on page 106, to help you find what you need (and the business that wants to sell it to you) quickly and easily.

ALHAMBRA

Intelligent Microcomputer Associates

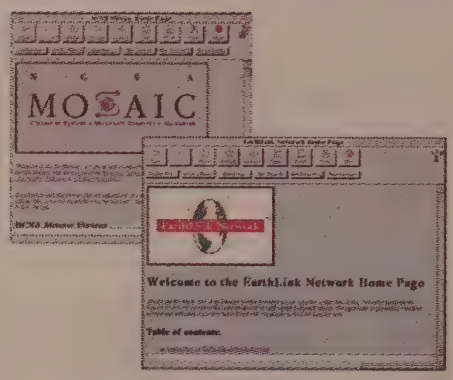
WE PUT YOU ON THE INTERNET

WHAT IS THE INTERNET?

The **Internet** is a network of computer networks spanning the globe. It has recently evolved into the most incredible communications medium the world has ever seen.

On the Internet, business people converse with associates, students search for information in thousands of databases and information resources, and ordinary citizens find, use, download, and originate information on a nearly infinite number of topics every day.

The Internet connects you instantly to over 30 million people around the world.



We help set you up with Net "surfing" software such as Mosaic.

HOW DO I GET CONNECTED?

Until recently, getting connected to the Internet was a complicated procedure. Now, **EarthLink Network** connects you directly to the Internet from your home or business computer—fast and easily. All you need is a modem and the software we supply. We will answer all of your questions about the Internet and help you make it a useful and enjoyable part of your life.

EarthLink Network offers inexpensive direct access to the world-wide Internet.

Call us, and we'll fill you in on the details.

CALL NOW 213-644-9500

How We Do Business

"Well, it comes with the system." You won't hear that line from us. All of our systems are customizable from the monitor to the mouse, so you don't pay for what you don't want. The system is thoroughly tested with your configuration before delivery.

We have no sales - our prices are constantly adjusted according to the market so that our customers get the lowest prices possible.

We speak your language – honest & knowledgeable answers to your questions, with no pressure to buy.

Many System Configurations Available

Have a custom system built to fit your needs with:
- ✓ Intel Processors
- ✓ Software - Microsoft, Lotus, Borland, Symantec, and all other major software companies
- ✓ Tape Drives
- ✓ Accessories

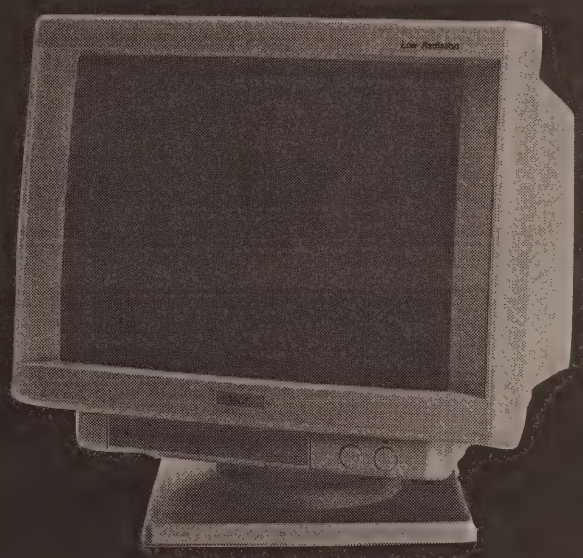
MGC

With the Most Intelligent Graphic Mode Control



MGC-1765VAF 17"

dot pitch	resolution	vertical sync.	horizontal sync.
0.26mm	1280 x 1024	50-100Hz	30-65KHz

TWO YEARS PARTS & LABOR WARRANTY

MGC

Earth and your health were the most important concerns our engineers had when making MGC monitors. This 17 inch, state-of-the-art, high resolution monitor delivers clear, rich images at an affordable cost for desktop publishers, as well as for today's demanding business and game applications. It has a power management system which complies with EPA Energy Star and VESA Display Power Management Signaling (DPMS) guidelines. This monitor also complies with the Swedish MPRII (low radiation) for better eye protection.

Energy
EPA POLLUTION PREVENTER

This 17 inch monitor has advanced features and roomy displays. You get premium graphics with a fine 0.26mm dot pitch and a non-interlaced maximum resolution of 1280 x 1024. The screen is also non-glare and anti-static. So you are able to enjoy a larger and sharper picture with minimum eye fatigue!

ISO-9000 Certified

How many times have you tried to adjust your screen in order to see the whole picture and later on you have to do it again for different programs? The 17 inch monitor is equipped with 21 programmable modes for different settings. There are 12 factory presets and 9 custom defined programmable modes. The monitor will detect the setting for the programs you want to run, and save you time and frustration in the future from constant screen adjustments.

2 YEARS PARTS & LABOR WARRANTY

With the flat screen tube design, light reflection disturbances and other distortions common in regular monitors are eliminated to provide a sharper and more comfortable image.

MPR-II (low radiation)

MGC is committed to bringing you the highest quality monitors with the most affordable prices you will find in this vast market. So, call a local distributor for more information on 14, 15 and 17 inch monitors.

- 2S-1P-1G ports, 101 enh. keyboard

i486™ DX2-66	**$1,945**
Pentium™-60	**$2,195**
Pentium™-66	**$2,295**
Pentium™-90	**$2,445**

TOP Rated Performance

PC Magazine rates Royal tops in performance (September 27, 1994). Once again, our lead in new technology puts us ahead of the game. ***Ahead of Gateway. Ahead of AST. Ahead of Hewlett Packard. Ahead of Dell, Micron, Ambra, and a host of others.***

So why bother with last year's stuff when you can have the latest? At Royal, we bring you the latest technology at the most affordable prices, month after month, thereby ensuring your long-term satisfaction. Check our specifications against the other top-tier companies. You'll find us to be strong contenders, with the latest Enhanced IDE and Wide SCSI hard drives, a no-skimp 512K external cache standard, the latest 64-bit video, 4X CD-ROMs, respected name brand sound cards, voice recognition, and award-winning monitors. Give a friendly Royal sales rep a call, and let us outfit you with the best of the latest.

NEW! 4X CD-ROM and

Media Master 4X 16MB RAM/730HD PCI

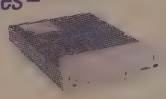
FAST 64-bit Video

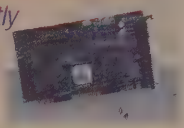
Zip through screen redraws with champion speeds. The amazing new ATI mach64 video 2MB RAM card, with ATI's newest 64-bit processor, achieves up to an incredible 42 WinMarks or more in Windows 3.11! (Winbench ver4.0)

4XCD-ROM Drive



With quadruple the processing power, 4X CD-ROM drives give you fast data transfer rates – up to 600KB/sec – for even-running, full motion video without "the shakes." Quadspeed CD-ROMs are nearly twice as fast as a triple-speed CD-ROMs.

TRUE Sound 16-bit DSP

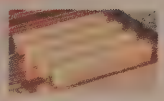


PC Magazine recently called it "the perfect sound card" for today's PC. Compatibility with all major sound standards, speech recognition, digital signal processing (DSP) for high fidelity sound at up to 20 million instructions per second, and true 16-bit record and playback. Plus MIDI, "special effects" like Q-Sound ("surround sound") and reverb, for audio realism so surprising you'll call it "True Sound".

MultiMedia CD Bundle

Royal bundles 14 sound- and action-packed CDs for your personal enjoyment. Includes games, entertainment, presentation software, and complete multimedia encyclopedia.

4 PCI Slots



Whereas most PC makers give you only 2 or 3 PCI slots on their motherboards, Royal gives you 4 PCI slots. That means you'll have 2 open 32-bit PCI slots for future uses, like networking, additional controllers, and other future high-end PCI cards. And Royal's roomy cases means many open slots and bays for add-on cards and drives of all kinds!

Voice Recognition System

- *Hardware, mic & software included*
- *Runs in memory, under applications*
- *Frees hands for typing*

Apple® Portable StyleWriter® Printer

The Apple® Portable StyleWriter® printer goes anywhere and everywhere with Apple Macintosh® and PowerBook® computers. It delivers high-resolution output, and versatile paper handling, all with smooth, quiet performance. And it even fits inside a briefcase. The Portable StyleWriter® weighs only 4.5 pounds, and works with any PowerBook®, Apple PowerBook Duo®, or Macintosh® computer, using a rechargeable battery or a standard power source. It can print in a horizontal or vertical position, so you can use it in even the most confined spaces, whether you need to print on letterhead, envelopes, labels, or transparencies

$379

#1820443

Corel Draw Gallery V1.0

Corel Draw Gallery will add flair to your word processing and presentations with over 10,000 clipart images. It includes Corel Professional photo sampler.

$39.95

MAC #1923517

Softkey

EXPLORE THE POSSIBILITIES!

Voted

"Computer Of The Month."

by MicroTimes (September '94)

Now the possibilities are even greater than ever before, with the Legacy fully modular notebooks, designed to put an end to obsolescence. Its nonproprietary design puts the user back in control, to allow for a quick upgrade to more speed, storage, and memory. Its unique modular design offers more interface than any other laptop, from networks to multimedia. MicroTimes said it best when they wrote "This notebook incorporates more flexibility than we have encountered in any other portable."

CPUs: Intel 486SX/25,33, DX/33, DX2/50, DX2/66, DX4/75 & 100

RAM: 4/8/20MB, **Storage:** 170, 260, 340, 520MB, **Display:** 9.5" Upgradable LCD panels, Mono, Duel Scan & Active Matrix.

486 DX2/66, Dual Scan Color, 340MB Hard Drive, 8MB RAM, DOS & Windows

$2525.00

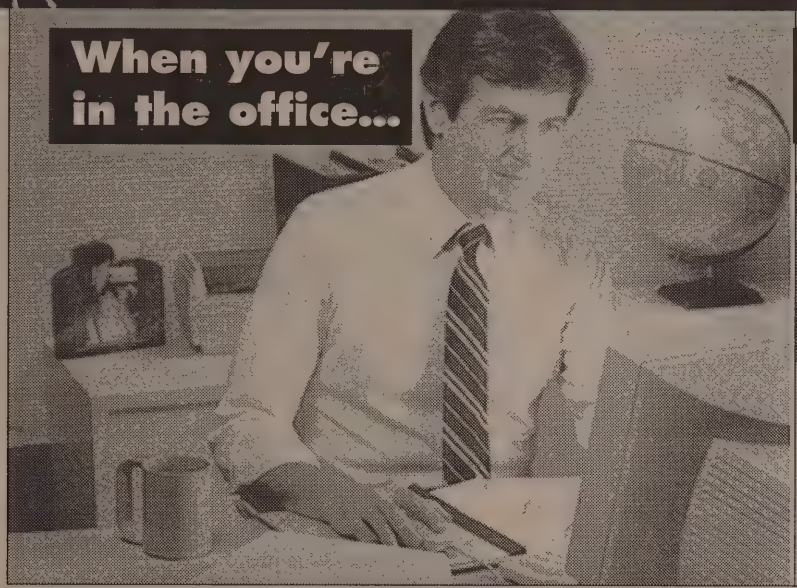
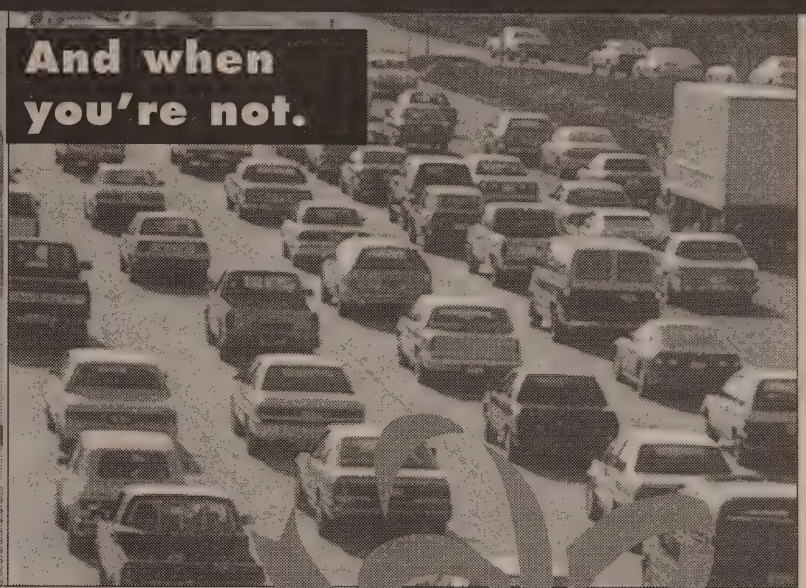
There Are Two Times When Modem Reliability Is Critical.





Some modem users don't care if their data gets hung up, transmits inaccurately, or they must redial several times. Most modem users do. For those users, there's ZyXEL, the full-featured modem/fax for serious users.

ZyXEL land and cellular modems get through where other modems fail. They are specially designed to overcome poor signal conditions on the physical layer with features like Fast Retrain and Auto Fall-Forward/Fall-Back. This means ZyXEL modems connect on the first try and continue to transmit data accurately at Ultra High Speeds up to 19.2Kbps over land lines and 14.4Kbps over cellular networks. DTE speeds can reach up to 76.8Kbps in asynchronous mode. Fax transmissions reach speeds up to 14.4Kbps over land and cellular networks.

ZyXEL data/fax/voice/cellular modems have more features than any modem of any price. Digitized Voice Capability with Speech Compression, Distinctive Ring, Multi-Level Security, and Asynchronous/Synchronous transmissions are just some of the standard and intelligent features offered by ZyXEL. And when it comes to cellular, no other modem comes close to ZyXEL. ZyCellular is not only fast and reliable, but it is the only cellular protocol that communicates in asynchronous/synchronous mode. With ZyCellular's autoswitch capability, your modem will automatically switch from land to cellular when land connections are lost. ZyCellular is the ideal backup for leased lines as well as for mobile communications.

ZyXEL modems work in all environments including DOS, Windows, OS/2, Macintosh, NeXT, UNIX and Amiga. So get serious about saving time, cost and effort with true modem reliability. Call today for your ZyXEL modem.

Low Prices On Ultra-High Speed Modems

ZyXEL U-1496 Plus.....$629
- 19.2Kbps Ultra High Speed
- Line Probing Techniques, On-Line Line Condition Monitoring
- 2/4-Wire Leased and Dial-Up Lines
- Call-Back Security, Password Protection, Caller ID, Distinctive Ring

ZyXEL U-1496E Plus.....$409
- 19.2Kbps Ultra High Speed
- LED Indicators and Voice/Data and Answer/Originate Switches
- 2-Wire Dial-Up and Leased Lines

ZyXEL U-1496B Internal Modem..$279
- 16.8Kbps Ultra High Speed
- 14.4Kbps Fax transmissions

ZyXEL U-1496E.....$289
- 16.8Kbps Ultra High Speed
- Digitized Voice Capability

ZyXEL Introduces

Cellular Capabilities on its Entire Line of Modems! ZyCellular is now a standard feature on all ZyXEL ultra high speed modems including the RS-1602 and RS-1602E Rackmount Systems! Communicate anytime, anywhere, under any condition with any ZyXEL modem!

Start your career in the Information Age with advanced technology training from

Mt. Sierra College

- Day, evening, or weekend classes.
- Supervised computer practice labs open 7 days a week.
- Individual attention, one student per workstation.
- FREE job placement help and job search training.

Earn your professional credentials in computer networking

Microsoft® NT™ • Novell NetWare®

- Complete CNA, CNE, ECNE, and MCSE certification training or individual classes to sharpen specific networking skills.
- FREE Novell NetWare, NSE Professional Version, or NetWare 3.1x to 4.x Update software.
- Authorized Novell/Microsoft courseware taught by certified instructors.

Master the skills you need to become a multimedia pro

Multimedia Presentations
Electronic Publishing • Desktop Video

- Comprehensive degree/diploma programs and professional workshops.
- Master over a dozen multimedia tools like: Aldus PageMaker, Macromedia Director, QuarkXPress, Adobe Illustrator, Macromedia Swivel 3D, Adobe Photoshop, Authorware Professional, SoundEdit Pro, Aldus Persuasion, Animator Pro, and more.
- Train on the latest Mac and DOS equipment.
- Graduate with a portfolio of completed projects to show prospective employers or clients.

Although classes start every six weeks, enrollment is limited to make sure you get personal attention. Call now to reserve your place.

GUIDE

Whether you are looking for personal productivity software for your sales staff or enterprise-wide security software for a mixed Windows/UNIX office, the annual *MicroTimes* Buyers Guide for New Products will help you stay up-to-date on the latest hardware and software for your business.

This year's guide looks at a broad range of products—from credit card-size PCMCIA peripherals to powerful Internet Web servers and from a new OS/2 word processor to PC-based multimedia sales and marketing software. Before you begin your search for new productivity tools, check this guide for your hardware and software solutions.

SOFTWARE

business software

DAY-TIMER ORGANIZER

Day-Timer Organizer is a powerful, flexible, easy-to-use personal information manager for comprehensive time and information management. It provides scheduling, task management, address book, notebook, and expense tracking functions for Windows, DOS, and networked environments. If you are already familiar with Day-Timers' popular paper-based organizers you will instantly recognize the daily planner screen metaphor. Data exchanged between office and portable computers are automatically updated and reconciled. You can also exchange messages routed through cc:Mail, Microsoft Mail, or most other email systems. The networked version is an excellent group scheduler and organizational tool for groups of two to 250. The workgroup version offers a TeamOrganizer view, automatic notification of invitees, task delegation, messaging, and selective sharing of addresses and notes. (Windows or DOS version, $139) Day-Timer Technologies, Inc., 2855 Campus Dr., San Mateo, CA 94403. (415)572-6260.

DAY-TIMER ORGANIZER

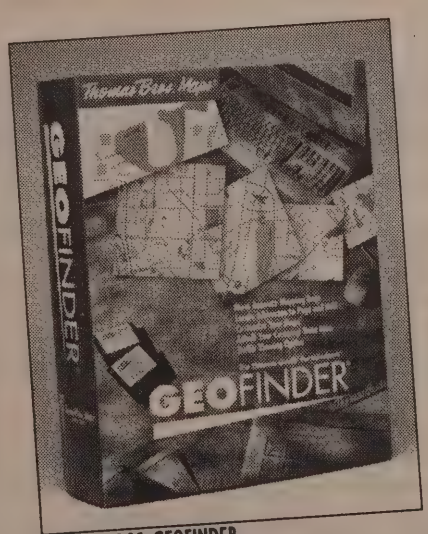
MYMAILMANAGER

MyMailManager offers a complete Bulk Mail solution. It eases the task of preparing mailings while qualifying mailings for maximum postal discount. The included CD-ROM Address Checker contains the USPS National Address Database, which contains every address in the US, ensuring address correction, standardization, and Zip+4 matching. The CD will be updated quarterly for accuracy. MyMailManager also performs Bulk Mail Cost analysis, prints US Postal Service forms, and assists users with written guides to the entire Bulk Mail process. It also produces hundreds of printouts, including labels, envelopes, postcards, address books, and more. ($129.95, Windows, DOS, and Macintosh) MySoftware Co., 2197 E. Bayshore Rd., Palo Alto, CA 94303. (415)473-3600.

MYMAILMANAGER

THOMAS BROS. MAPS GEOFINDER

GeoFinder for Windows allows people to access every page of the Thomas Guide on their computer—but that is only the beginning. Once an address is entered, a map appears on the screen with the location indicated by a marker. The cursor can also be maneuvered around the map and stopped on any given street, at which time the address of the block appears. Users can zoom in for a closer look, pan out to explore the surrounding areas, and customize maps with text, lines, circles, and polygons. Up-to-the-minute conditions for Los Angeles and Orange County are available with optional traffic hardware and a traffic subscription service: TrafficAlert, available through the CUE Network Corp., offers real-time, route-specific traffic information. ($250, with corresponding data for each given area sold separately for $100–$150) Thomas Bros. Maps, 17731 Cowan, Irvine, CA 92714. (714)863-1984.



THOMAS BROS. GEOFINDER

cd-rom

A BRIEF HISTORY OF TIME

Based on the phenomenally popular book by Stephen Hawking, this interactive adventure integrates graphics, movies, and animations with the complete text of the book to bring Professor Hawking's ideas to life. With this CD-ROM you will journey to the edge of a black hole, join Galileo for the discovery of the laws of acceleration, roam the subatomic landscape of Quarkland, and participate in the ultimate conversation about the beginning, direction, and end of time. From ancient philosophers to modern astrophysicists, the major contributors to the search for the meaning of the universe are given their own voices. Historical figures, including Aristotle, Galileo, Ptolemy, Copernicus, Kepler, and Newton, emerge from the silence of history to explain their theories and discoveries. Created by Jim Mervis and Robit Hairman, A Brief History of Time: An Interactive Adventure on CD-ROM with Stephen W. Hawking is a coproduction of Crunch Media in association with *Scientific America* and W. H. Freeman. ($59.95, Macintosh and PC compatible) W. H. Freeman and Co. Publishers, 41 Madison Ave., New York, NY 10010. (212)576-9400.

security software

RSA BSAFE 2.1

BSAFE is a portable C toolkit that allows developers to integrate privacy and authentication features into any application. BSAFE modules can be used to construct anything from RSA Digital Signatures to complex key exchange, encryption, or key negotiation schemes. It provides the programmer with a complete palette of crypto algorithms, including RSA, DES, the exportable RC2 and RC4 ciphers, Diffie-Hellman, and many others. This encryption "engine" has been used by the developers of products like Louts Notes, Novell NetWare, and WordPerfect Forms. Platforms supported include DOS, Macintosh, OS/2, SVR4 UNIX, and others. ($209) RSA Data Security, Inc., 100 Marine Pkwy., Suite 500, Redwood City, CA 94065-1031. (415)595-8782. Email: info@rsa.com .

DATAMEDIA SECUREXCHANGE

SECUREXchange, for Windows and Windows NT, is an add-on product used to enhance the security of your existing electronic mail and messaging applications. It incorporates RSA technology to secure, package, and digitally sign messages and attach documents. SECUREXchange also includes a set of administration tools which allows an organization to issue and maintain its own X.509 compliant certificates. Public/private key pairs are generated by the end-user, then electronically sent to the organization's Certificate Approval Authority where they are notarized. SECUREXchange is closely integrated with the standard client font-end of your email system so that the process of protecting a message is simple for end-users. ($495, ten-user license) Datamedia Corp., 20 Trafalgar Sq., Nashua,

NH 03063. (603)886-1570. Email: info@datamedia.com .

ENTRUST

Entrust, for enterprise-wide encryption and digital signatures, allows you to secure confidential information and eliminate paper based on digital signatures. This new product represents a low-cost, automated solution for privacy and authenticity on your client/server network. It supplies state-of-the-art cryptography and key management as well as tools to imbed security into existing and future applications. Entrust provides 1MB/second encryption, easy-to-use GUI interface, automated public-key management network wide, and open standards. It supports Macintosh, Windows, and UNIX platforms as X.500, X.509, PEM, DES, and DSS encryption standards. ($159 per user) Northern Telecom, Inc., Dept. 4254, PO Box 13010, Research Triangle Park, NC 27709. 1-800-NORTHERN.

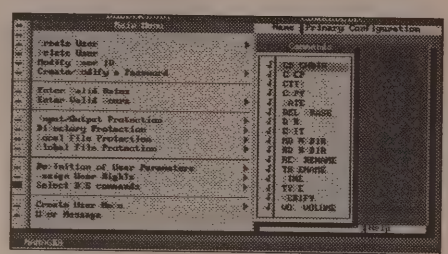
WATCHDOG KEYMASTER

Watchdog Keymaster provides the ability to retrieve lost or forgotten System Administration passwords, but only under the control of the Keymaster. This is a useful tool whenever multiple PCs are installed with Watchdog. Only one copy of Keymaster per site is needed. Watchdog Keymaster implements this protection and retrieval method using the RSA Public Key Cryptosystem. Available for DOS and OS/2. ($500) Fisher International System Corp., 4073 Mercantile Ave., Naples, FL 33942-9981. 1-800-237-4510.

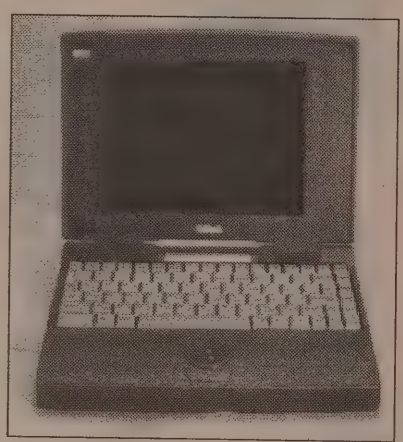
SECURE HYPERACCESS

Secure HyperACCESS is communications software for asynchronous communications and remote control via modem, ISDN, networked, or RS232 connections. It uses RSA Data Security's BSAFE toolkit to generate public/private key pairs for data encryption during file transfer. Files are automatically encrypted using an RSA RC2 key that was generated by the receiver and sent to the sender encrypted with the sender's RSA public key. Other features include on-the-fly virus detection; remote control or access for both the DOS and OS/2 platforms and applications; file transfer with Xmodem, Kermit, Ymodem, and Zmodem; script language; and learning capability. (DOS, $199; OS/2, $299) Hilgraeve, Inc., 111 Conant Ave., Suite A, Monroe, MI 48161. (313)243-0576.

WATCHDOG KEYMASTER



DIALOCK BOOT



CTX EZBOOK

CHECKPOINT FIREWALL-1

CheckPoint FireWall-1 controls access to an organization's heterogeneous network, while providing users with secure connectivity to all Internet resources and IP-based services. It enables a smooth growth path from a single Internet gateway to an enterprise-wide system. A patent pending filtering technology inspects each packet, promptly blocking all unwanted communication attempts. Packets can be blocked, forwarded, logged, or used to activate alerts, according to custom specifications. CheckPoint FireWall-1 manages, operates, and monitors the entire network security scheme from the system manager's workstation. It supports all network interfaces, network protocols, and services. The system runs on SPARCstations, operating under SunOS 4.1.3 and Solaris. Qualix Group, Inc., 1900 S. Norfolk St., #224, San Mateo, CA 94403-1151. 1-800-245-UNIX. Email: info@qualix.com .

DIALOCK BOOT

DiaLOCK BOOT is a software-only productivity solution for PC systems managers. It increases user productivity through piracy prevention, virus prevention, single sign-on, increased reliability, and simpler management. DiaLOCK BOOT restricts floppy drive use to authorized diskettes; can disable system startup from the boot disk; controls all access ports, communication ports, and disk drives; provides a single sign-on feature that eliminates multiple sign-ons and passwords; secures the work environment according to individual status, responsibilities, and capabilities; and has an audit utility that allows PC resource activity to be monitored from one station or server. (From $200 for one single-user package or $3750 for a twenty-five-user network or license version) COM&DIA, L.L.C., 3000 Highwoods Blvd., Suite 100, Raleigh, NC 27604. (919)878-6503.

hardware

laptops

CTX EZBOOK

At the heart of the EzBook is a 3.3V low- voltage, SL-enhanced processor. Available with a 486SX/33, 486DX2/50, 486DX4/75, or 486DX4/100 processor, the EzBook comes standard with 4MB of RAM, expandable to 32MB, 260 MB 2.5" IDE hard drive, 1.44MB 3.5" floppy drive, one PCMCIA Type III slot and one Type II slot, and NiMH removable battery pack. CTX offers three 9.5" display options: a 64-grayscale monochrome backlit display; a 256-color dual-scan screen; or a 64,000-color TFT active matrix display. The 84-key keyboard includes an embedded numeric keypad and inverted-T cursor keys. Full power management features are provided, and the EzBook is EPA Energy Star-

compliant. The optional docking station includes three 16-bit ISA slots, a built-in speaker, optional internal CD-ROM drive, VGA port, keyboard port, speaker and microphone ports, parallel port, and two serial ports. (Prices start at $1549) CTX International, Inc., 20530 Earlgate St., Walnut, CA 91789. (909)595-6146.

WINBOOK XP

The WinBook XP features Intel's new SL Enhanced 486DX4-75 processor, a 9.5" dual-scan color screen, and comes standard with 4MB of RAM (user-expandable to 32MB) and a removable 120MB hard drive, and one PCMCIA Type III or two PCMCIA Type II slots. A Lexmark trackpoint is standard and customers can add an additional Logitech 19mm trackball centered in the palmrest. All models come with 19.5mm Lexmark keyboards. The WinBook XP also features the Western Digital RocketChip 32-bit local bus video accelerator and 1MB video RAM. Options include removable hard drive capacities up to 520MB, internal 14.4 fax/voice/data modem, and four-slot docking station. ($1999) WinBook Computer Corp., 1160 Steelwood Rd., Columbus, OH 43212. 1-800-468-2162.

SUN NETRA SERVER

The new Netra server line, including the Netra Internet Server and the Netra System Management Server, was designed to provide a complete solution that includes all the system software, application software, and administration tools preinstalled, and configured on the server for ready-to-go operation. Netra administration software makes these servers simple to install, use, and administer. They also include configuration utilities, security software, an email gateway, and file transfer capabilities. Base configuration of the Netra Internet Server includes 16MB of RAM and 535MB of storage, and is expandable up to four processors. The Netra System Management Server includes 32MB of RAM and 1.05GB of storage. (Internet Server, $6149; System Management Server, $10,399) Sun Microsystems Computer Co., 1-800-821-4643.

BBN INTERNET SERVER

The Internet Server offers a turnkey, easy-to-manage server to help businesses, government, and other organizations publish information on the Internet and obtain full access to Internet services. The server consists of an Intel Pentium-based PC running Berkeley UNIX, configured with an Ethernet controller card and tape drive for back-up and software installation. The standard system configuration includes 16MB of RAM and a 500MB hard disk. BBN's GUI server administration software is a desktop application that enables users with no UNIX system background to easily add new personal accounts, create electronic mailing lists, set up bulletin boards, and maintain Gopher and WWW services from their Windows or Macintosh desktop. The server supports all Internet-protocol client platforms, including Windows, Macintosh, UNIX,

and OS/2. ($9895 for a complete plug-and-play hardware and software package. One year maintenance service is $1450, which includes free server software updates and email and 800-hotline support). Bolt Beranek and Newman, Inc., 130 Cambridge Park Dr., Cambridge, MA 02140.

INTEGRIX SWS5 SERIES

The SWS5/85 and SWS5/100 are SPARCstation 5 compatible workstations based on the new microSPARC II technology. Designed to offer more than double the speed of older SPARCstations, the SWS5 series are multi-purpose workstations suitable for CPU-intensive applications such as graphics and CAD, with an entry-level price. Both models come with three 32-bit SBus expansion slots, a 64-bit high-speed AFX graphics board, up to 256MB of RAM, and are 100% binary compatible with the Sun SPARCstation 5. Storage options include a CD-ROM drive, two internal hard disk drives, and one 3.5", 1.44MB floppy drive. The workstation contains one parallel port, a fast SCSI-2 interface, and two RS-232/RS-423 serial ports. Also included are ports for 10BaseT twisted pair (or AUI Ethernet interface) and CD-quality 16-bit audio. (SWS5/85 with system board, chassis, keyboard, an opto-mechanical mouse, and power supply, $3495) Integrix, Inc., 1200 Lawrence Dr., Suite 150, Newbury Park, CA 91320-1316. 1-800-300-8288. Email: sales@integrix.com .

ASPEN ALPINE WORKSTATIONS

The Alpine, based on DEC's Alpha AXP microprocessor, combines Digital's 21064 processor and 21072 PCI core logic chip set with a 128-bit RAM bus engineered for maximum computing performance. Secondary cache RAM of 2MB is standard in the 275MHz and 233MHz configurations; 200MHz and 166MHz versions are equipped with 512K RAM. All Alpines are expandable up to 1GB of RAM suing 72-pin SIMMs. Engineered to fully support Windows NT, VMS, and OSF/1 operating systems, standard systems include a 2MB PCI video adapter, an Ethernet PCI adapter, and 17" monitor. The Alpine has three PCI expansion slots, onboard SCSI-2 interface with internal and external connectors, three ISA expansion slots, two high-speed serial ports, and more. (Prices start at $6230 for a 166MHz system and range up to $11,095 for the 275MHz configuration) Aspen Systems, Inc., 4026 Youngfield St., Wheat Ridge, CO 80033. (303)431-4606.

CARRERA COBRA AXP 275

The Cobra AXP 275 is a high-performance workstation based on the Alpha AXP 21064A, 275MHz chip from DEC. Standard configuration includes 128-bit memory bus, 128-bit processor bus, and two 32-bit PCI and three 16-bit ISA expansion slots. Embedded motherboard devices include PCI local bus SCSI-2 and Ethernet PC controllers, two asynchronous serial ports, parallel port, keyboard, mouse, and IBM-compatible floppy disk drive. Carrera Computers, Inc., 23181 Verdugo Dr., 105A, Laguna Hills, CA 92653. (714)707-5051. Email: carrera1@delphi.com .

TATUNG POWERPC 604 SYSTEM

The TPC-5540 and TPC-5740 systems are based on the 100MHz PowerPC 604 microprocessor and conform with the PowerPC Reference Platform. The TPC-5540 supports the Western Digital form factor and includes a CPU upgrade/Level 2 cache socket, two 33MHz PCI slots, and two ISA slots. The TPC-5740 supports the Baby AT form factor and includes a CPU upgrade/Level 2 cache socket, three 33MHz PCI slots, and three ISA slots. Both systems will support Solaris and Windows NT operating systems, and Tatung's plans call for AIX

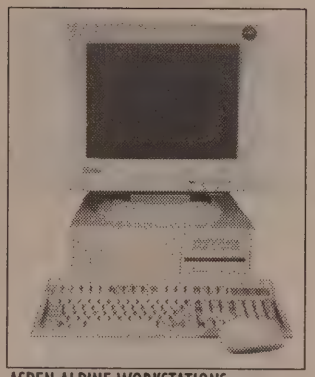
DEC MULTIA MULTICLIENT DESKTOP

The Multia MultiClient Desktop combines a 166MHz Alpha AXP processor and Microsoft Windows NT Workstation v3.5 operating system to address the rapidly changing needs of users and MIS managers operating in multi-vendor, client/server environments. Standard features include ThinWire, thickwire, and twisted pair Ethernet connections, a PCI-based performance graphics accelerator, built-in audio hardware with 16-bit CD-quality sound, and 24MB of RAM, expandable to 256MB. It is Internet-ready with simplified access provided by a 32-bit Mosaic graphical Web browser and supports all major networking protocols. (Suggested list price starts at $3495) Digital Equipment Corp., 146 Main St., Maynard, MA 01745-2571. 1-800-777-4343.



ASPEN ALPINE WORKSTATIONS

pcmcia peripherals

PROCLASS PCMCIA 144 MODEM

The ProClass PCMCIA 144 is available in two models: the PC144TC comes with a PCMCIA RJ-11 connector cable, and the PC144 EZ-Port features a pop-out RJ-11 connector that requires no special cable to attach to the telephone line. Designed to fit Type II, Type III, and Toshiba 16mm PCMCIA slots, the new modems comply with PCMCIA Release 2.0 and 2.1 to ensure compatibility with all major PCMCIA-equipped notebook computers. Despite their small size, they provide all the attributes of sophisticated 14.4Kbps, V.32bis desktop modems. An automatic idle mode for when the modem is not in use significantly extends the PC's battery life. Flash memory provides fast and easy feature upgrades by the user. WinFAX Lite and Quick Link II Win/DOS fax and data communications software are included. ($249, ProClass with EZ-Port; $239, ProClass) Practical Peripherals, 375 Conejo Ridge, Thousand Oaks, CA 91361-4928. (805)497-4774.

SCAN-ONE FOR PCMCIA

US ROBOTICS V.34 PCMCIA MODEMS

The Sportster V.34 Data/Fax PCMCIA 2.1 and Courier V.34 Data/Fax PCMCIA 2.1 modems are compatible with PCMCIA 2.1 slots. They include US Robotics' Easy Install and CardSoft PCMCIA software by SystemSoft for fast, trouble-free setup. They also include a compact dual RJ-11 connector for simultaneous modem and telephone connectivity. The Courier model offers additional features that optimize remote LAN or host access in the mobile environment. These include Adaptive Speed Leveling, HST (proprietary modulation protocol for 16.8Kbps data transmission), dial and link security, field upgradable flash ROM, and remote configuration. (Sportster, $499; Courier, $575) US Robotics, Inc., 8100 N. McCormick Blvd., Skokie, IL 60079. 1-800-DIAL-USR.

SCAN-ONE FOR PCMCIA

Scan-One for PCMCIA brings bar code scanning and collection to PC, diminishing the need for separate collection and tracking sys-

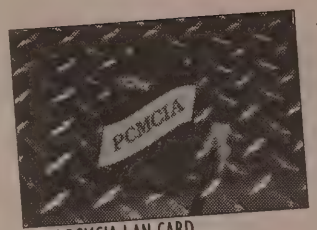
tems. Users can now use their existing mobile devices—laptops, palmtops, PDAs, etc.—for remote bar code data collection. It includes a Type II PCMCIA card and cable in addition to the Scan-One wand, connector, and software. Scan-One for PCMCIA is easy to install and use. Simply plug the PCMCIA card into the computer's PCMCIA slot, connect the bar code input device to the PCMCIA card, load the software driver, and set the options. Vertical Technologies, Inc., 11170 S. State, 2nd Fl., Sandy, UT 84070. (801)576-9700.

CNET PCMCIA LAN CARD

The CN30BC 10Mbps Ethernet PCMCIA LAN adapter gives notebook, laptop, and palmtop computer users fast, easy, and reliable connections to networks. The hot-swappable PCMCIA Type II card is composed of two units: the main card and the media coupler. The CNet adapter card houses all of the essential network processing hardware, including the Ethernet controller interface, a 16K RAM data buffer, and flash memory. The media coupler contains a transceiver that provides both 10BaseT and 10Base2 interfaces for increased flexibility in Ethernet network connection. ($129) CNet Technology, Inc., 2199 Zanker Rd., San Jose, CA 95131. 1-800-486-CNET.

NOVAPAK 144

NovaPak 144 is a new communications device from NovaLink that combines a 14,400bps cellular data/fax/voice modem and an alphanumeric pager on a single PCMCIA Type II card. With both cellular and standard phone line capabilities, the NovaPak provides high-speed, wired or wireless communications from anywhere in the world. The package includes all the necessary software for data, fax, voice communications as well as wireless communications software to enable the sending and receiving of messages through numerous paging services. Weighing less than 4oz. and sized to fit into a coat pocket or purse, the NovaPak can also be carried as a standalone pager. ($449) NovaLink Technologies, Inc., 48511 Warm Springs Blvd., Suite 208, Fremont, CA 94539. 1-800-NOVALINK. Email: info@novatech.com .



CNET PCMCIA LAN CARD

NOVAPAK 144

SOUND/SCSI-II PCMCIA CARD

The Sound/SCSI-II card is designed for use with PCMCIA-equipped portable PCs used for multimedia business applications including presentations, training programs, and demonstrations. Housed in a PCMCIA-compliant Type II form factor, it offers hot insertion and removal, PCMCIA Card and Socket Services, and DOS/Windows Plug & Play software compatibility. It can run both sound and SCSI operations simultaneously. Cabling is provided to enable both functions and either sound or SCSI operations separately. ($369) Cardwell International Corp., 110 Blue Ravine Rd., Suite 156, Folsom, CA 95630-4712. (916)985-1880.

BAR CODE IS OUR SPECIALTY

INPUT AUTOMATION, INC.

The single source for all your bar code system needs: hardware, software, consulting and system design. Our philosophy is based on two principles: high-quality industrial products, and the best technical support available.

DESIGN AND CONSULTING

To create your optimal solution, an Input Automation consultant will design a complete system, and then recommend equipment that fills your exact needs.

We will not be satisfied until our bar code system meets your demanding standards.

needs of mobile PC users who wish to incorporate voice, sound, and music into business presentations. It features 16-bit digitized sound, built-in high-quality microphones, and earphones, and supports OS/2 and Windows applications as well as business-oriented DOS applications. The card also supports Wavetable MIDI synthesis, enabling high-quality music for Windows applications, and supports Microsoft's Sound System 2.0. In addition to business presentations, is supports emerging applications such as the addition of voice notes to electronic mail messages and documents. ($150 each for quantities of 1000) IBM Microelectronics, 1-800-IBM-0181.

printers & scanners

XANTE LASERPRESS 1200

The LaserPress 1200 is a 1200 x 1200dpi laser printer that provides full-bleed 11" x 17" capabilities and image setter quality halftones that can be printed at 120 lines per inch or higher. In addition to 1200dpi, the standard configuration of the LaserPress 1200 will support user-selectable 600 x 600dpi draft mode. It features Adobe PostScript Level 2 software and includes HP PCL5 and HP-GL 7475A emulations. An 8-page-per-minute laser printer based on the Toshiba TN-7270 engine, the standard configuration includes the 33MHz AMD 29030 RISC processor, 20MB of RAM (upgradable to 64MB), and SCSI disk connection. Cross-platform compatibility is ensured through simultaneously active serial, parallel, and AppleTalk interfaces. Ethernet is also included, and supports concurrently active EtherTalk and TCP/IP protocols. ($7495) Xanté Corp., 2559 Emogene St., Mobile, AL 36606. (205)476-8189.

LASERMASTER UNITY 1800PM-R

The Unity 1800PM-R features a 100MHz, 32-bit proprietary pipelined processor with a floating-point numeric processor, 48MB of RAM, and 40K of fast-cache memory. It gives users 12" x 19" printing capabilities, built-in network connectivity, two adjustable paper trays, and 235 Type 1 typefaces resident on a 240MB internal hard drive. Support for PostScript Level 2 is based on the PowerPage PostScript interpreter from Pipeline Associates. Built-in support for simultaneous connectivity to all operating systems is provided through Ethernet (EtherTalk, TCP/IP, Novell NetWare), LocalTalk, parallel, and serial interfaces. The Unity's high-speed VideoNet port allows users to add the PressMate

BUYERS GUIDE 1995

when their prepress needs become more sophisticated. PressMate provides chemical-free file and color proofing on the desktop. ($9995) LaserMaster Corp., 6900 Shady Oak Rd., Eden Prairie, MN 55344. (612)944-9330.

XEROX 8808

The Xerox 8808 is a desktop graphics printer that provides the type of high-quality resolution required for technical documents, presentation charts and graphs, intricate line drawings, and photographic reproductions. The printer features built-in PostScript Level 2 and PCL5E support for text and CAD files, and can output documents up to 11" x 17". It comes standard with 600 x 600dpi capability, and is capable of printing at a true 800 x 800dpi, which is automatically activated with the installation of 16MB of additional memory. Print speed for standard 8.5" x 11" sheets is 8ppm, and for 11" x 17" is 4ppm. ($3750) Xerox Corp., PO Box 92718, Rochester, NY 14692-8818. 1-800-937-7397.

KODAK XLS 8600 PS PRINTER

The XLS 8600 PS printer is designed to replace the XLS 8300 and brings new levels of quality and productivity to color applications, as well as a monochrome option for raster printing. It prints both PostScript Level 2 and raster image files. The printer includes built-in support for SCSI, Centronics, and LocalTalk. An optional interface card provides simultaneous support for EtherTalk, Novell NetWare, and TCP/IP protocols. All ports are multi-sensing, allowing the printer to support multiple inputs simultaneously without changing connections. The XLS 8600 comes standard with 32MB of RAM, upgradable to 64MB, Macintosh and Windows system drivers, and Photoshop plug-ins to provide faster raster-mode printing. A wide range of ribbons, paper, and transparencies have been designed for use with the printer. ($9995; optional network card, $995) Eastman Kodak Co., 901 Elmgrove Rd., Rochester, NY 14653-6305. 1-800-235-6325.

NEWGEN CHROMAX COLOR PRINTER

The Chromax Color Printer, a PostScript Level 2, dye-sublimation printer, is perfect for the production needs of graphic arts and desktop publishing users requiring pre-film proofing on the desktop. It ships standard with DayStar Digital's ColorMatch software, which offers users high-quality color calibration and true WYSIWYP (What You See Is What You Print) capability. The Chromax has a 170MB internal hard drive and 48MB of RAM, expandable to 192MB. With 300dpi continuous-tone printing, and RISC-based processing, the Chromax is fast and convenient and allows the design and production process to maintain high productivity levels. Standard connectivity includes auto-switching among AppleTalk, parallel, serial, and SCSI-2 ports for multi-platform support. ($15,995) NewGen Systems Corp., 17550 Newhope St., Fountain Valley, CA 92708. 1-800-756-0566.

TEKTRONIX PHASER 440

The Phaser 440, a PostScript Level 2, letter-size dye sublimation color printer designed for users who want superior color output that resembles a photograph, prints continuous-tone images and accommodates oversized media for full-bleed printing. Its new, enhanced architecture includes a fast print engine (2ppm) and built-in color and image processing hardware for exceptionally fast throughput. The Phaser 440 features dual input trays and standard parallel, serial, and AppleTalk ports. Ethernet is available

486/50 SX2 $1095 VLB
486/66 DX2 $1195 VLB

L I G H T N I N G P C

maximum performance and functionality from today's, and tomorrow's demanding peripherals – like full motion video, virtual reality, 24-Bit true color & graphics.

- Here are just a few of the advantages that come with every Comtrade PCI local bus system.
- An enhanced PCI/IDE controller that allows your hard drive to transfer data up to twice as fast.
- A wide 32-Bit data path with speeds up to 33MHz – designed to compliment Pentium & i486 technology.
- Data throughput speeds of up to 132MB per second.
- Double throughput due to the fact that data is read from the peripherals through linear bursts – every clock cycle instead of every other clock cycle.
- The best long-term expandability & flexibility.

PCI GigaByte Tornado

- Intel486™ DX2 or Pentium™ CPU
- Ultra-Fast **256K** WB Cache; Up to 512K
- **16MB** RAM & Expandable to 128MB
- **1080MB** 11ms **PCI Enhanced IDE** Hard Drive
- **2X CD-ROM Drive (4X CD-ROM Add $100)**
- One Floppy Drive (3.5" or 5.25")
- PCI **Diamond Stealth 64 (2MB RAM)** Accelerator (The best accelerator for both DOS & Windows)

Only Maximus delivers today's 128-bit speed!

Our New 128-bit Graphics Engine

Maximus' new graphic acceleration technology offers you the *absolute World's fastest* speeds in Windows, Unix, Chicago, Windows NT, X-Windows, AutoCAD, OS/2 and Nextstep operating environments! In Windows 3.11, you can expect an *honest* peak performance up to *200% faster* than previous records—*up to 55 Winmarks!* *(Winbench 4.0)*

And, you'll get non-interlaced 24-bit "true-to-life" millions of colors—*even across the full width of large 21" monitors!!!* Or, you can use our "virtual big-screen" in thousands of colors all the way up to 1600x1280 resolution!

Get on the "Graphics Information Super Highway" with our Magna Artist-128, shown right... *or, ask one of our friendly sales reps to quote you a price for this new 128-bit accelerator in your own customized system!*

New! Magna Artist 4X

The Ultimate 17" Multi-Media Station

- **16 MB fast RAM, 256K L2 cache**
- **1060 MB** 9ms **IDE** HD with 512K cache buffer
- **PCI Fast IDE hard disk controller**
- **PowerGraf-64 PCI accelerator, 2MB, 1600x1200, featuring a huge "virtual big-screen" to 2048-wide res and ultrafast speed — to *38+ WinMarks!***
- **17" Dig. flatscreen, .26, 1600x1200,** MPR-II
- **Quad-speed SCSI-2 CD-ROM—*600Kb/sec DTR !!!***
- **Orchid Soundwave32 16-bit DSP soundcard with 2 high-fidelity speakers & 9 popular CD titles**

West Los Angeles

Active Business Computer

Store manager: Jackie Heng
11919 Santa Monica Blvd.
W. Los Angeles, CA 90025
(310)477-7280 Fax: (310)477-6260
Areas of Specialty (and In-House Specialist): systems, networking (sales staff)
Operating Systems Supported: MS-DOS, OS/2, Windows, Novell
Multimedia Specialties: CD titles, hardware
Top-Selling Brands in 1994: KFC, Conner, TEAC
Special Value-Added Services: Service, training, support, warranties.

Citicom Computer

Store manager: Eric Kang
3019 Wilshire Blvd.
W. Los Angeles, CA 90010
(310)453-2726 Fax: (310)453-6716
Areas of Specialty: hardware customization, networking, software development
Multimedia Specialties: CD titles, hardware
Top-Selling Brands in 1994: Citicom, Maxtor, MAG
Special Value-Added Services: Lifetime technical support.

Computer Palace

Store manager: Navid
11909 W. Pico Blvd.
W. Los Angeles, CA 90064
(310)478-4321 Fax: (310)477-1918
Areas of Specialty (and In-House Specialist): networking, desktop publishing (staff)
Operating Systems Supported: MS-DOS, Windows, Macintosh, Windows NT
Multimedia Specialties: desktop publishing, hardware, software
Top-Selling Brands in 1994: Hewlett-Packard, Apple, Canon
Special Value-Added Services: We offer repair service, training, on-site service. Rental, extended warranty, and support on full line of Apple and IBM compatibles.

Mac Enthusiasts

Store manager: Mark Greenblatt
10653 Pico Blvd.
W. Los Angeles, CA 90064
(310)470-3826 Fax: (310)441-4871
Areas of Specialty: Mac component-level repair, Mac networking, Mac upgrades and troubleshooting
Operating Systems Supported: Macintosh
Multimedia Specialty: hardware
Top-Selling Brands in 1994: Global Village, Quantum, Supra
Special Value-Added Services: Macintosh-only repairs, upgrades, support, training, troubleshooting, consulting, sales.

Micro University

Store manager: Sid Allen
1244 Westwood Blvd.
W. Los Angeles, CA 90024
(310)470-9233 Fax: (310)474-8486
Areas of Specialty (and In-House Specialist): systems, networking (staff)
Operating Systems Supported: MS-DOS, OS/2, Windows, Macintosh, Windows NT
Top-Selling Brands in 1994: Apple, Toshiba, AST
Special Value-Added Services: Service, training, support, warranties, rentals.

Westminster

Katronic Company

Store manager: Gino
14382 Hoover St., Ste. A9
Westminster, CA 92683
(714)895-2084 Fax: (714)897-9853
Areas of Specialty (and In-House Specialist): business and PCs, networks (Gino)
Operating Systems Supported: MS-DOS, OS/2, UNIX, Novell
Top-Selling Brands in 1994: Katronic Computer systems
Special Value-Added Services: Service, support, warranties.

Microsel Peripherals

Store manager: Krisman
15368 Beach Blvd.
Westminster, CA 92683
(714)892-5020 Fax: (714)892-7901
Areas of Specialty: Novell networks, Windows NT, PC systems
Operating Systems Supported: MS-DOS, OS/2, Windows, Macintosh
Multimedia Specialties: video, desktop publishing, hardware, software
Top-Selling Brands in 1994: Microsel Systems
Special Value-Added Services: Service contract, network support.

Peaktron Computer

Store manager: Michelle Wu
5771–5773 Westminster Blvd.
Westminster, CA 92683
(714)893-6224 Fax: (714)893-6764
Areas of Specialty (and In-House Specialist): multimedia, hardware, networks (Andrew, Michelle); software (custom developed) (Andrew); service and upgrades (Eric)
Operating Systems Supported: MS-DOS, OS/2, Windows, Macintosh
Multimedia Specialties: CD titles, video, hardware, software
Top-Selling Brands in 1994: Mitsumi, NEC, Toshiba
Special Value-Added Services: We sell and support our clients with complete computing solutions, including PC systems with printers in networking environments, incorporated with our own store management software.

Whittier

Pantex Computer, Inc.

Store manager: Lili Chen
11546 E. Washington Blvd., A & B
Whittier, CA 90606
(310)699-3333 Fax: (310)699-1804
Operating Systems Supported: MS-DOS
Top-Selling Brands in 1994: Panthai case, BioStar main board, Samtron monitor
Special Value-Added Services: One-year warranty.

Woodland Hills

Applied Intelligence

Store manager: Ron Schwartz

ENVISION® MULTIMEDIA COMPUTER CENTERS LA's #1

AFFORDABLE PENTIUM POWER

Pentium POWERSTATIONS

Stuck in the computer slow lane? Then try Envision's Pentium Powerstations on for size! Envision has value priced Pentiums to fit your budget starting from under $1,400. With performance up to 250% faster than a 486DX2-66, they fly. At these prices, they'll leave our showrooms even faster! Come in to an Envision Multimedia Computer Center and try one on for size today.

Intel Pentium 250% Faster Than 486

Envision Pentium Powerstations are powered by advanced Intel pentium™ Pentium technology for performance up to 250% Faster Than 486DX2-66s.

3.3 Volt Design

Envision Pentium 90 & 100 MHz Systems incorporate new 3.3 Volt technology for lower power consumption and cooler operation so that your computer can run more optimally and efficiently.

Enhanced IDE Hard Disks

Enhanced IDE is standard on all Pentium Powerstations giving you super fast access to your data at lightning-fast 11 MB/s tranfer rates for up to 3 times the performance of typical IDE drives.

64-bit Accelerators

64-bit PCI graphics accelerators are now standard on all Pentium Powerstationsgiving you two to three times faster graphics than average 32-bit graphics accelerators. That way, you can see what you want to see with less waiting.

Hi-Speed Serial Ports & Enhanced Parallel Ports

Every Envision Pentium Powerstation also comes with two hi-speed 16550 UART serial ports, for faster data transfer with your hi-speed modem or serial device, and an enhanced parallel port for bi-directional buffered communications between your printer and your computer for error-free printing.

FINANCE $50*

Standard System Features

- Intel Pentium-60 or 90 MHz CPUs
- 3 PCI Local Bus Slots
- Energy Star Green PC Power Saver
- 256K External Write-back Cache (ex to 1MB)
- 3.5" 1.44MB Floppy Drive
- 32-bit Enhanced IDE HD Controller Up to 11MB/s Transfer Rates (2-3x faster)
- 2 Hi-Speed 16550 Serial Ports
- ECP/EPP Enhanced Parallel Port
- Medium Tower Case/230W UL PS
- Enhanced 101-key Keyboard & Serial Mouse

Multimedia System Features

- Double, Triple or Quad Speed CD-ROMs
- 16-bit Sound Card or Sound Blaster 16
- Pair of Speakers (Magnetically Shielded)
- Choose your own CD Bundle 24 CD Titles included ($700 Value)

It answers the phone! It faxes! It plays music & data CDs! It's cable TV-ready?!?

Introducing Family•STATION

FamilySTATION... it's a whole new type of computer. That's because it's not just a computer, it's also a fax machine, modem, answering machine, CD stereo system, cable-ready TV, video game player & multimedia computer all in one complete unit. It also includes loads of useful software for the whole family. With Microsoft Works which includes a spreadsheet, word processor & database, Dad can bring home work from the office. Mom can manage the family finances with Microsoft Money. Son can research the world with the 21 Volume Compton's Encyclopedia. Daughter can find the latest news for her report with America Online. Imagine doing so much from one place! It's FamilySTATION... built with your family in mind.

Intel Inside

Envision FamilySTATIONs are powered by genuine Intel 486 & Pentium technology for maximum pentium™ performance, reliability and 100% guaranteed compatibility.

It's a Cable-Ready TV

Every FamilySTATIONs has a built-in cable-ready TV so you can watch the latest news or your favorite programs without leaving your PC.

It's a CD Stereo System

You can select you favorite music CD to keep you relaxed while you type away. And with a built-in mixer, you can adjust the volume or balance.

It's a Video Game Player

Play your favorite video game like Rebel Assault or SimCity 2000. You'll get blown away by the realistic sounding sound effects from the built-in 16-bit sound card. And you can plug in your favorite joystick.

It's an Answering Machine

The FamilySTATION can answer your phone with the built-in voice mail system. It can direct messages to up to 999 mailboxes or page you when you get a message.

It's a Fax Machine & Modem

Receive or send faxes anywhere in the world with the built-in fax. Or call your favorite online service to see the latest news, shop at thousands of stores, or check your bank account balance with the built-in modem. You can even hook into Internet, that "information superhighway" you've been hearing so much about.

It's a Multimedia Computer

At the heart of every FamilySTATION is a full multimedia compter system ready to access the more than 5000 multimedia CD-ROM titles now on the market from 21 volume full encyclopedias to interactive stories that read to kids to educational programs that can teach you kids subjects like history or calculus or access great works of literature to exciting games that let you conquer the world or build your own special world.

It's Loaded with Software

It comes with lots of software like Microsoft DOS, Microsoft Windows, Microsoft Works, Microsoft Money, Compton's Encyclopedia, Webster's Dictionary & Thesaurus, America Online, and 21 more exciting titles including exciting action-packed games.

SPECIFICATIONS

- Intel 486 or Pentium CPUs
- 4MB Memory, ex to 64MB (8MB-Add $160)
- 3.5" 1.44MB Floppy Drive
- 425MB Hard Drive, upgradable to 1,080MB
- Enhanced 101-key Keyboard & Mouse
- Double Speed CD-ROM Drive
- 16-bit Stereo Sound Card & Speakers
- 14,400bps Fax & Modem
- Voice Mail Phone Messaging System
- Cable-ready TV Tuner (181 channels)

PERFORMANCE, SERVICE & OPTIONS!

MORE PERFORMANCE

*Envision doesn't only have the lowest price on computers in town, it also has the **highest performance computers** in town utilizing the latest and best in **new computer technologies**.*

4X - QUAD SPEED CD-ROM

Quad-speed CD-ROM drives are now available in the entire lineup of Envision systems giving you a whole new dimension in multimedia performance. With 600KB/s Transfer Rates, they run twice as fast as regular double speed CD-ROM drives and 50% faster than triple speed CD-ROM drives for xtra performance.

MODE 3 ENHANCED IDE HD

*Many Envision systems now incorporate the newest in hard drive technology like **Mode 3 Enhanced IDE**. With **transfer rates** from **11 to 16 MB/s**, Mode 3 Enhanced IDE represents a new breed of hard drives designed for optimal performance. Running up to **3 times faster** than typical IDE drives and faster than even SCSI-2 drives, Enhanced IDE really gives you more bang for your buck.*

FAST 64-BIT GRAPHICS

*Many Envision Systems now feature **super fast 64-bit Graphics Accelerators**, which process video data **64 bits** at a time, for video performance that is more than **twice as fast** as normal 32-bit accelerators making them perfect for handling and processing complex graphics like CAD, desktop publishing graphics design and animation, and vector/raster graphics.*

MORE SERVICE

Envision also has some of the best service and support. At Envision, we feel that it the most important factor in choosing a computer is not the price or performance, but the place you buy it from. That's why our staff is dedicated to giving you the best service and support possible.

2 YEAR LABOR/1 YEAR PARTS WARRANTY

*All Envision Systems are backed with Envision's exclusive **2 years labor** and **1 year parts warranty** for piece of mind.*

GE Service Protection Plus Extended 4 Year Service Plans

*And for added piece of mind, you can add a **4 year on-site extended service plan** from **General Electric** - the nation's leader in high technology service and suport.*

96 HOUR BURN-IN TESTING

*All Envision Systems are run through Envision's comprehensive **96-hour burn-in** testing to ensure system integrity & reliability.*

ASSEMBLED IN THE USA

*Envision Systems are assembled right here in the **United States** at our Southern California computer factory using only the finest components made by such big manufacturers as **Intel, IBM, Conner, Teac, Sony, ATI, Diamond** and **Creative Labs**.*

CUSTOM CONFIGURATIONS

Envision has many different models to choose from but if you don't see the configuration that best suits your need, we would be happy to custom configure your system the way you want. Just ask your friendly Envision sales representative for more details on the many options that you can add.

FINANCING

Envision offers you many differents ways to buy an Envision computer. You can pay by cash, check, VISA, or MasterCard. Envision also has many different financing plans to fit your budget.

NO INTEREST 'TIL 1995

*You can select our 90 days same as cash plan which gives you up to **90 days** to pay for your computer **without paying any interest**! That means you'll pay no interest 'til 1995!*

MONTHLY PAYMENT PLANS

*You can also select our closed-end **financing plans** with terms of **up to 60 months** with reasonable monthly payments that won't break the bank.*

A FRIENDLY & KNOWLEDGABLE STAFF

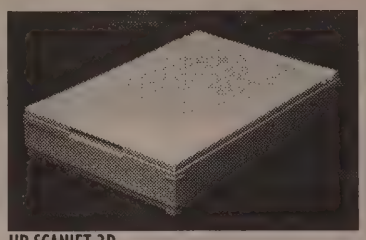
for EtherTalk, NetWare, or TCP/IP protocols. Base memory configuration is 16MB (expandable to 64MB), which supports letter and A4-size image processing and three-pass printing capability. A memory upgrade option of 16MB is available to add full-bleed and four-pass printing capability. The Phaser 440 color printer uses Tektronix's proprietary TekColor Photofine and Dynamic Correction image processing technologies for color image and accuracy. ($7995) Tektronix, Inc., PO Box 1000, MS 63-583, Wilsonville, OR 97070. 1-800-835-6100.

AVISION COLOR SCANNER

The AV 6120C Plus color scanner from Avision Lab offers 2400 x 2400dpi scanning resolution. It comes bundled with Adobe Photoshop 3.0 and Xerox OCR Textbridge OCR software to give the user a complete high-end scanning package for both Macintosh and PCs. A low-cost transparent scanning bed and auto-calibration software for scanning negative film or 35mm slides is available as an option. ($1499) Avision Lab, Inc., 48521 Warm Springs Blvd., #312, Fremont, CA 94539. (510)440-8785.

FUJITSU SCANPARTNER 10

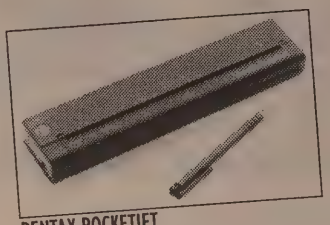
ScanPartner 10, ideal for small workgroups, has a fast 10ppm throughput, 300dpi resolution, 24-bit color, a standard 50-sheet automatic document feeder, and a SCSI interface. Designed for DOS/Windows, UNIX, and Macintosh environments, the color ScanPartner uses flatbed or automatic scanning and accepts both letter- and legal-size documents. It comes standard with both ISIS and TWAIN color drivers, ensuring compatibility with a wide range of document management and business application packages. ($1695) Fujitsu Computer Products of America, 2904 Orchard Pkwy., San Jose, CA 95134. (408)432-6333.



HP SCANJET 3P

HP SCANJET 3P

The HP ScanJet 3p grayscale scanner replaces the ScanJet IIp. It comes bundled with both text-recognition software and new automatic scanning image software that allows office professionals to enhance documents with high-quality images and editable text. It also includes a new copy utility that, when used with a printer, gives users a convenience copier at their desktops. The ScanJet 3p offers high resolution—1200dpi enhanced resolution and 300dpi optical resolution—and can scan a page of text in ten seconds. The scanner supports both PC and Macintosh computers. With the optional 20-page automatic document feeder (ADF), users can scan multiple-page documents. ($599; ADF, $239) Hewlett-Packard Co., Direct Marketing Organization, PO Box 58059, MS511L-SJ, Santa Clara, CA 95051-8059. 1-800-SCANJET.



PENTAX POCKETJET

PENTAX POCKETJET

The Pentax PocketJet is a 300dpi direct thermal printer for portable PC users. It weighs only 17.5oz., including the rechargeable NiCd battery; measures 10.04" x 2.16" x 1.18"; and features

full LaserJet IIp (PCL4) emulation with seven internal HP fonts and the ability to download additional fonts and graphics. It uses letter- or A4-size thermal paper and has a rated print speed of 3ppm. Because it uses direct thermal printing, there is no need for costly thermal ribbons or ink cartridges, saving the user considerable expense over the life of the printer. ($499, includes battery, AC adapter/charger, parallel cable, printer carrying case, and one hundred-sheet box of thermal paper) Pentax Technologies, 100 Technology Dr., Broomfield, CO 80021. 1-800-543-6144.

pc hardware

IOS BOARD

The Independent Operating System (IOS) board is a custom switching circuit board that allows switching between independent C hard drives within a PC running an IDE hard drive. The PC user can install and run any combination of operating systems, including DOS, OS/2, UNIX, and Windows, with no worry about compatibility. System or C drive selection is done by installing a key switch into the existing PC cabinet. The IOS key switch has four positions, representing three independent C drives and Off. When a given C drive is selected the other drives are electronically disconnected and powered off. The key may be removed from the switch at any position allowing security of any or all of the C drives. ($285) Multiple Operating Systems, 2090 S. Nova Rd., Suite K112, South Daytona, FL 32119. (904)767-4770.

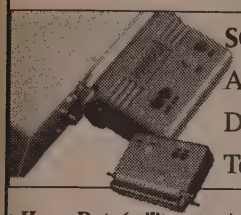
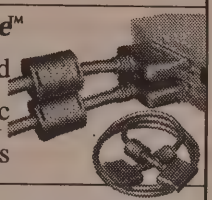
We Fix SCSI Problems And Improve SCSI Performance



SCSI*Vue*™ Active Diagnostic Terminator

- *Active Termination Increases Reliability*
- *Provides Regulated SCSI Voltage*
- *Automatically Adjusts As SCSI Changes*
- *Matches Cable Impedance Needs*
- *Gold Connectors Reduce Noise*
- *LEDs Diagnose SCSI Problems*

SCSI*Vue*™ Gold Diagnostic Cables



- *Heavy Duty (military type) Cable Construction*
- *Provides Best Impedence Match*
- *Foil, Braid, Ferrite Shielding Reduces Noise*
- *Data Transfers Are Dramatically Improved*
- *LED Provides Diagnostic Ability*
- *Reduces SCSI Retries and SCSI Errors*

The quality of your SCSI Cables and Terminators has a direct effect on the performance and reliability of any SCSI bus. Using inexpensive "PASSIVE TYPE" Terminators and "UN-SHIELDED" Cables can cause many problems. Granite Digital has introduced the **SCSI*Vue*** line of **Active Diagnostic Terminators** and **Gold Diagnostic Cables** to eliminate SCSI problems and to improve SCSI performance.

The **SCSI*Vue* Active Diagnostic Terminator** is not only the best Active Terminator you can find, but also a SCSI analyzer. The **SCSI*Vue* Gold Diagnostic Cables** are exclusively designed to provide the maximum protection available to the SCSI bus.

ALARIS STINGER

The Alaris Stinger is a 64-bit PCI Windows graphics accelerator that features the S3 Vision864 graphics processor; highly optimized Alaris drivers; and high-speed, low-cost DRAM. It provides 24-bit color technology, enabling the display of millions of colors at resolutions up to 800 x 600; comes standard with 1MB of video memory upgradable to 2MB; supports resolutions up to 1280 x 1024 with 1MB and 1600 x 1200 with 2MB; provides flicker-free refresh rates using a 135MHz RAMDAC; and is fully EPA Energy Star compliant. The Stinger provides software drivers for Windows for Workgroups 3.11, Windows NT, OS/2, AutoCAD, Animator Pro, and Micro Station PC, with additional drivers available from Alaris. ($249) Alaris, Inc., 47338 Fremont Blvd., Fremont, CA 94538. 1-800-317-2348.

monitors

PACOM KC7F

The Pacom KC7F is a high-quality 17" monitor designed with particular attention to aesthetics, featuring clean, graceful styling. It meets MPR II standards for low emission and is Energy Star compliant, and the display is based on flat-square CRT technology and has both anti-glare and anti-static coating. On-screen controls allow the user to adjust pincushioning, trapezoidal distortion, color attributes, and more. The refresh rate is 60Hz at 1280 x 1024 noninterlaced resolution, and it has a horizontal scan range of 30–65kHz and a vertical scan range of 50–90Hz. The 17" screen size allows business users to view large spreadsheets or multiple windows, and users of desktop publishing, multimedia, and CAD applications will appreciate the excellent image quality and color clarity. Compatible with PC and Macintosh. ($799) Pacom, Inc., 3333 Bowers Ave., Suite 145, Santa Clara, CA 95054. (408)982-9375.

ARTMEDIA MONITOR

ARTMEDIA MONITOR

ArtMedia's 17" monitor offers resolution up to 1600 x 1200 and full compatibility with PC and Macintosh systems. The Trinitron monitor complies with the EPA Energy Star Program, as well as the Swedish MPR II standards for low emission. Its full digital design automatically calculates and adjusts image geometry and distortion, focus, and clarity in response to the user's video board. ArtMedia monitors come standard with a three-year parts and labor warranty. ArtMedia monitor models also include 14.5", 15", and 20" displays. ($799) Corion Industrial Corp., USA, 2272 Calle Del Mundo, Santa Clara, CA 95054. (408)980-8988.

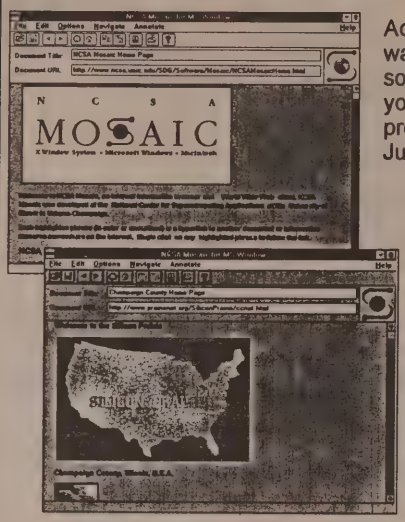
INTERNET FOR WINDOWS™



Access the Internet the way it was meant; with color, graphics, sound, and video. We provide you with all necessary software, preconfigured for easy startup. Just install and run!

$21.90

Per month. 20 Hrs. prime time, unlimited other times

We provide the fastest phone access in the industry (28.8 Kbps). This, coupled with our high-speed Pentium servers ensures the best performance and highest quality service.

Also available: Full text-based (dial-up) Internet access for **$17.50** per mo. Access e-mail, ftp, telnet, etc. using our well-designed, easy to use menus (UNIX lovers need not be offended, access to the UNIX shell is only a keystroke away!). For all computers (IBM, Mac, etc.) with a modem and communications package.

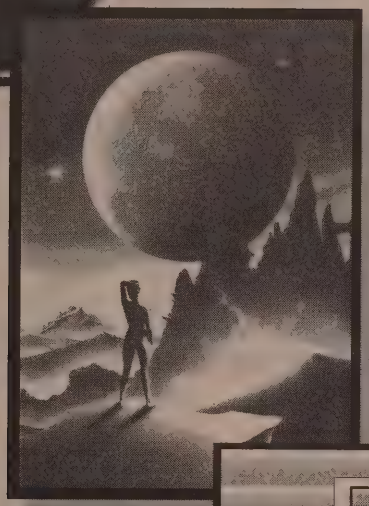
MICROTIMES

For all your Christmas needs!

Looking for an online service with the features YOU want?



How about one of the largest CD-ROM Libraries in California? Or the best interactive online games in existence? Or Weather Maps transmitted directly from the satellite? How about a matching system that will help you find the love of your life, and even let you download a photo?

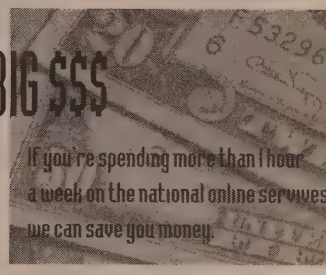
INTRODUCING:

Full Internet

IRC Gopher Telnet Rlogin Usenet Ftp E-Mail World Wide Web

Log in from areas outside Los Angeles using modems owned and operated by PACIFIC BELL® A Pacific Telesis Company AT NO EXTRA CHARGE!

MCI CONNECT Log from anywhere in the USA at 28,800 baud for as little as 7.5 cents/minute!



Like to chat? Perhaps we can interest you in our WorldLink (tm) Chat Network, where we keep a full-time connection to chat BBSes all over the world. Are you into DOOM or other virtual reality games? Our Game Connection lets you challenge and play other callers. Want to make some new friends? We have several local gatherings each week.

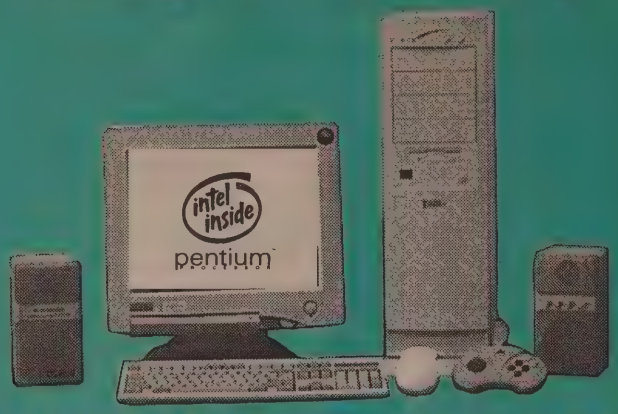
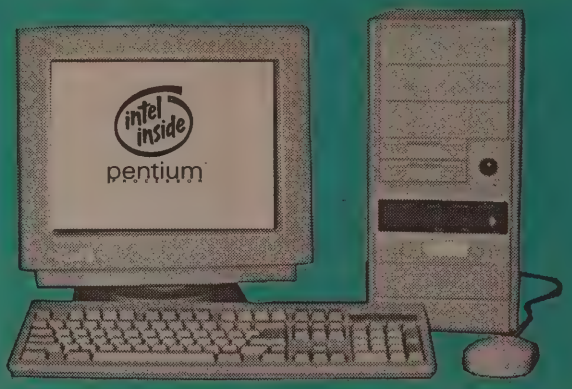
PC Magic's Crazy Holiday Cash Sale!





PENTIUM 90MHz PCI LOCAL BUS SYSTEM

- Intel Pentium 90MHz CPU, Neptune Chipset
- MOTHERBOARD MANUFACTURED BY INTEL
- 3 PCI Local Bus and ISA Bus
- Heatsink w/Fan for Pentium Processor
- 256K Cache Memory
- 8MB RAM Installed (Exp. to 128MB)
- Full-Tower Case w/250 Watt UL Power Supply
- 1.44MB TEAC Floppy Drive
- 540MB IDE Hard Drive
- Built-in PCI Enhanced IDE Controller Card
- Two High Speed Serial Port (16550 UART)
- S3 864 PCI Local Bus SVGA Graphics Accelerator Card w/1MB RAM
- 15" Flat Screen, Low Radiation, Green SVGA N.I. Monitor .28dp 1280x1024
- 101 Key Keyboard
- Hi-Resolution Mouse

Regular	CASH
$1945	**$1895**

PENTIUM 60 & 66MHz PCI LOCAL BUS SYSTEM

- Intel Pentium 60MHz or 66MHz Processor
- 4 PCI Local Bus and 4 ISA Bus
- Heatsink w/Fan for Pentium Processor
- 256K Cache Memory
- 8MB RAM Installed (Exp. to 128MB)
- Mid-Tower Case w/230 Watt UL Power Supply
- 1.44MB TEAC Floppy Drive
- 540MB IDE Hard Drive
- PCI Enhanced IDE Controller Card
- 2 Serial, 1 Parallel, 1 Game Port
- S3 864 PCI Local Bus SVGA Graphics Accelerator Card w/1MB RAM
- 15" Flat Screen, Low Radiation, Green SVGA N.I. Monitor .28dp 1280x1024
- 101 Key Keyboard
- Hi-Resolution Mouse

Introducing the last page of paper in this magazine.

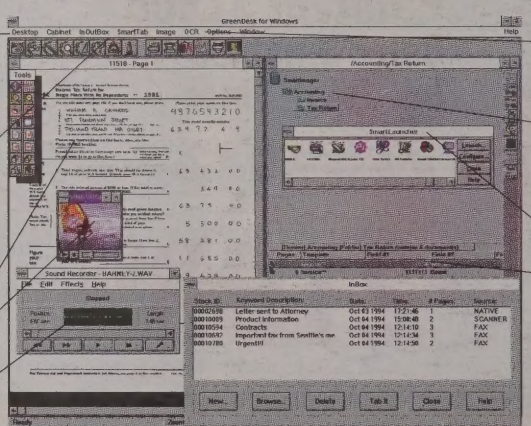
(And in your office!)

Green Computing and Document Imaging
At last... a paper-reducing, full featured personal document imaging system for only $99 — GreenDesk for Windows™. Integrate your computer-based and paper-based information from a single "green" desktop and cabinet– a revolutionary breakthrough in personal productivity software for SmallOffice/Home Office systems and professional users.

Customizable Database / PIM
Use our SmartTabs database as a stand-alone, fully customizable Personal Information Manager, or as a powerful search engine to "tab" all your GreenDesk- managed documents. Also supports keyword and Boolean search across the entire cabinet.

Electronic File Cabinet
Manage and compress (up to 45:1) your PC-based faxes, control your scanner, and store any data, (including multimedia video and sound) for instant access.

- Faxes & scanned paper images
- Video/multimedia clips
- Voice mail & sound clips
- Integrates all your data "Across Applications"



OCR / Document "Recycling"
Go PaperFree. Recycle your incoming faxes and scanned pape documents into editable text for your favorite word processor with our ultra-accurate Optical Character Recognition engin

Compound Folders
With our cross-applicaton "compound folders," you manage al your information just like a paper-based file cabinet— only "greener" and smarter. GreenDesk delivers "long file name" cap bility today and search "across your applications"- a time saver and productivity booster.

Program Launch / Desktop Management
Just click on any document (or Windows "object") stored in our GreenDesk cabinet– our SmartLauncher finds the file and launches the "native" Windows applications automatically. Mo beyond Windows "file manager" to a seamless "office environment" of your favorite programs and often- accessed documen

SmartImager Corporation, 5137 Clareton Drive, Suite 200
